Carrer Objective

Passionate AI and Machine Learning enthusiast with hands-on experience in data analysis, predictive modeling, and software development. Seeking an opportunity to contribute to innovative AI solutions that drive efficiency and insight, while enhancing technical expertise in advanced machine learning frameworks and data science tools.

Internship

Python Developer Intern-CODSOFT Jul2024–Aug2024

– Created a Python-based Password Generator that generates secure, customizable passwords using letters, digits, and punctuation.
– Developed a command-line Calculator in Python supporting basic arithmetic operations using functions and user input.
– Built a Rock-Paper-Scissors game in Python featuring interactive gameplay, computer-generated moves, and score tracking.

Education

- **B.Tech. in Computer Science and Engineering (Artificial Intelligence and Machine Learning)** 2023-2027
  Noida Institute of Engineering and Technology (NIET), Greater Noida
  CGPA: 8.05

- **Intermediate (CBSE)** 2021-2022
  Boonmax Convent School, Uttar Pradesh
  Percentage: 78.4%

- **High School (CBSE)** 2019-2020
  Central Academy School, Uttar Pradesh
  Percentage: 91%

Projects

• Student Performance Predictor using ANN 2025

- Built an Artificial Neural Network (ANN) model to predict student academic performance using academic and lifestyle data.
- Performed data preprocessing and feature analysis to identify patterns affecting student results.

• Expense Tracker using html, css and javascript 2025

- Created a web-based expense tracking system for recording and managing daily financial transactions.
- Implemented charts and visualizations to analyze spending patterns for better financial planning.

• Library Management System using DBMS 2024

- Designed a relational database to manage books, members, and issue records efficiently.
- Created ER diagrams and converted them into normalized tables to reduce data redundancy.

Skills

• Programming & Tools: Python, Java, HTML, CSS, SQL
• Tools & Platforms: Google Colab, VS Code, Microsoft Excel, Power BI, Tableau
• Concepts: Machine Learning, Data Analysis, Data Cleaning, Data Management, Data Visualization

Certifications

• Deloitte – Data Analytics Jul2025
• Tata Group (Forage) - Gen AI Powered Data Analytics Job Simulation Jul2025
• Infosys Springboard –Deep Learning for Developers Sep2025
• Infosys Springboard – Introduction to Machine Learning Sep2024

Languages

• Hindi (Native)
• English (Fluent)
• German (Beginner)
