Education

Noida Institute of Engineering and Technology (NIET) — **Greater Noida, U.P.**
B.Tech in Computer Science and Engineering (Cyber Security) — ***CGPA: 6.7*** — *Nov 2022 – Present*

Guru Nanak English School — **Varanasi, India**
Class 12, Science Stream — ***67.2%*** — *2019 – 2021*

Guru Nanak English School — **Varanasi, India**
Class 10, CBSE — ***77.4%*** — *2018 – 2019*

Relevant Coursework

Data Structures and Algorithms, Artificial Intelligence, Operating Systems, Cyber Security,
Database Management Systems, Computer Networks, Web Development

Experience

Suven Consultants and Technology Pvt. Ltd. — **Greater Noida, U.P.**
Front-End Developer Intern — *2022 – Present*

- Developed responsive and interactive web pages using **HTML, CSS, JavaScript**, and **React.js**.
- Collaborated with designers to improve accessibility and UI responsiveness.
- Implemented form validations and AJAX-based dynamic content loading.
- Built a dashboard for data visualization using charts and reusable components.

CodSoft — **Remote**
Python Developer Intern — *July 2024 – Aug 2024*

- Created automation scripts and data-processing tools using **Python**.
- Integrated APIs to retrieve and analyze real-time data.
- Utilized **Pandas, NumPy, and Matplotlib** for analytics and visualization.

Projects

Mentor Recommender System — *May 2024 – July 2024*

- Developed a system to recommend suitable mentors to students based on skill sets, interests, and academic background.
- Implemented using **Python, Flask, and Machine Learning algorithms** for similarity matching.
- Designed an intuitive **web interface** to input student data and display mentor recommendations dynamically.
- Used **pandas, scikit-learn, and SQLite** for data storage and recommendation model training.
- Improved the mentor allocation process and ensured fair distribution across departments.

Attendance Management System — *Jan 2024 – Mar 2024*

- Created a digital attendance system to record, track, and analyze student attendance efficiently.
- Built using **HTML, CSS, PHP, and MySQL** with role-based login for teachers and administrators.
- Enabled automatic attendance report generation and data visualization through charts.
- Integrated features for marking attendance, managing subjects, and exporting daily/monthly reports.
- Reduced manual workload and improved accuracy in attendance tracking by 80%.

Certifications

- **Google Cybersecurity Certificate (Coursera)** – Fundamentals of Cyber Security and Threat Analysis
- **Python for Data Science (IBM SkillsBuild)** – Data processing and visualization
- **Front-End Web Development (Suven Consultants)** – HTML, CSS, JavaScript, React.js

Technical Skills

- **Programming Languages:** Python, JavaScript, C++
- **Web Technologies:** HTML5, CSS3, React.js, Node.js, PHP, MySQL
- **Tools:** Git, VS Code, Jupyter Notebook, Eclipse
- **Libraries/Frameworks:** Pandas, NumPy, Matplotlib, Scikit-learn, Flask, OpenCV
