Manish Sharma

Software Engineer

+91-9557634456 manishniet2004@gmail.com Greater Noida, India

Summary

Enthusiastic Software Engineer pursuing B.Tech with IoT specialization at NIET. Proficient in developing scalable Full Stack applications and familiar with leveraging AI and automated processes to streamline system performance. Currently expanding technical expertise in Java Spring Boot to architect robust, scalable backend systems.

Skills

Languages: Java, C, Python, JavaScript (ES6+), SQL, PHP
Frameworks & Web: Node.js, Express.js, React.js, Spring Boot, Bootstrap, Tailwind CSS, HTML5, CSS3
Tools & Cloud: AWS, Microsoft Azure, Docker, Git, GitHub, Postman, Linux
Security & Databases: Zero Trust, Cybersecurity, API Security, MySQL, MongoDB, PostgreSQL

Professional Experience

Artificial Intelligence Intern **Oct 2025 – Nov 2025**
Codsoft *Remote*

- Implemented an AI-based Tic-Tac-Toe game using Minimax logic, achieving a 100% win/draw rate.
- Built a content recommendation engine using collaborative filtering, improving user relevance by 25%.
- Architected an interactive NLP chatbot that resolved 90% of real-time user queries.

Java Programming Intern **Oct 2024 – Nov 2024**
Codsoft *Remote*

- Spearheaded a secure ATM simulation using OOP principles, ensuring data integrity for 500+ accounts.
- Developed an automated Grade Calculator that reduced manual academic reporting time by 40%.
- Designed high-performance logical games in Java with optimized memory and event handling.

Projects

E-commerce Web App | *React.js, Node.js, MongoDB, Stripe* **Recent**

- Launched a platform with JWT authentication, handling 1,000+ products with sub-second latency.
- Integrated Stripe API for secure payment processing and end-to-end data encryption.

Student Academic Performance Dashboard | *HTML, TailwindCSS, JavaScript, MySQL* **2025**

- Created a centralized data visualization hub tracking grades and attendance for over five departments.
- Delivered actionable insights through SQL-based data analysis, identifying key factors in academic improvement.

Disaster Management and Monitoring using IoT | *C, IoT Sensors, Predictive Analytics* **2024**

- Deployed real-time sensor monitoring that increased emergency response speed by 30% via alerts.
- Utilized predictive analytics on historical data to mitigate environmental risks through proactive detection.

Certifications

- **Zero Trust Certified Associate (ZTCA):** Secure cloud architecture and network security (Zscaler).
- **Python for Data Science, AI & Development:** Advanced certification from IBM for AI deployment.

Education

B.Tech in Computer Science and Engineering (IoT) **2022 – 2026**
Noida Institute of Engineering and Technology *Greater Noida, UP*
