Education

Noida Institute of Engineering and Technology CGPA: 7.78/10
Bachelor of Technology in CSE, specialization in IOT, Minor Degree in Artificial Intelligence and Machine Learning *Nov 2022 – June 2026*

Council for the Indian School Certificate Examinations 81%
Bishop George School — ISC - 12th *July 2022*

Council for the Indian School Certificate Examinations 91%
Bishop George School — ICSE - 10th *July 2020*

Experience

Associate Product Consultant Intern Feb 2026-Present
Cvent

- Worked on Event Cloud product workflows in a global enterprise SaaS environment, managing configurations related to registrations, payments, websites, reporting, and attendee management.
- Conducted workflow and user behavior analysis to identify product bottlenecks, optimize registration journeys, and improve conversion-related business outcomes.
- Built reports and dashboards using Excel and internal analytics tools to monitor KPIs including revenue, registration funnel performance, email engagement, and merchandise/order trends.
- Configured event websites, UI flows, session logic, access controls, and payment structures for enterprise events across healthcare, finance, technology, and education sectors.
- Strengthened product thinking, stakeholder communication, business analysis, and documentation skills through exposure to enterprise product consulting and SaaS operations.

President- MUN and Debate Society August 2025- Present
Conventus

- Grew the community to **1000+ members**. **Led the organizing committee of national-level events** like CMUN with **250+ participants from 35+ colleges across 5 states**, secured **sponsorships**, designed website www.conventusmun.com and managed **registrations, logistics, finances, marketing, graphic designing, hospitality, social media and content creation** with a 30-member team using structured **Excel** tracking, analytics and delegation

Web Developer and Content Writer Intern March 2023 – April 2023
Quinnflix (Infotainment Startup)

- Maintained and updated the frontend of the infotainment website to improve user experience, interface and performance
- Authored multiple high-quality infotainment and marketing materials including blogs, reports, brochures, and infographics
- Created engaging pitch decks and revenue-generating presentations to support client acquisition
- Efficiently managed up to 5 concurrent user feedback based tasks/projects while meeting tight deadlines

Projects

Audio Support Agent (AI-Powered Voice-Based Customer Support) | *Python, FastAPI, Streamlit, OpenAI Whisper, GPT-3.5, ChromaD*

* Designed and implemented an AI-powered voice support system using a modular STT–LLM–TTS pipeline for end-to-end customer query handling.
* Built a 3-layer architecture with Streamlit, FastAPI, and independent AI services for speech processing, API orchestration, and response generation.
* Integrated OpenAI Whisper, GPT-3.5 with RAG, and Microsoft Edge TTS to deliver context-aware, low-hallucination voice responses from support knowledge bases.
* Improved production readiness through async pipeline orchestration, error handling, logging, health monitoring, and modular component design.

Appointment Allocation System (SIH Project) | *ML, Web Dev, PostgreSQL, IoT*

* Designed an AI-powered system to optimize doctor availability and automate appointment scheduling using historical data and stakeholder feedback as part of SIH (Himachal Pradesh Govt).
* Built scalable REST APIs handling up to 250 concurrent req/sec with optimized PostgreSQL queries, reducing avg. latency by 40%.
* Reduced wait times, crowding, and operational costs; ensured remote accessibility and secured multi-channel data integration.

Deep-Fake Detector | *React, Python, XceptionNet, Streamlit*

* Developed a platform for detecting deep-fake images/videos using XceptionNet ML model.
* Implemented frame-wise classification for high-accuracy video analysis.
* Integrated React frontend and Streamlit UI; and added an embedded chatbot.
* Built NLP-powered chatbot backend with RESTful Django APIs, using indexed search and async data fetch to cut latency under load.

Technical Skills

Languages: Java, Python, JavaScript, C, R
Core: DSA, DBMS, OOPS, Operating Systems, Computer Networks, Embedded Systems
Technologies: Data Analytics, Cloud Computing, Internet of Things, Machine Learning, SEO, Web Development
Libraries/Frameworks/Databases: MySQL, MongoDB, NumPy, Pandas, Matplotlib
Tools: Git/GitHub, Tableau, Power BI, AWS, MS Office, Figma, Docker, Canva, Jupyter, Eclipse, VS Code, Notion
Soft Skills: Communication, Research, Leadership, Teamwork, Documentation, Problem Solving, Critical Thinking, Product Strategy Building, Public Speaking, Collaboration, Multitasking, Time Management, Emotional Intelligence

Achievements and Leadership

- **5-star HackerRank Java Coder**; solved **200+ LeetCode problems** with a **60-day streak**, demonstrating consistent problem-solving and logical thinking.
- Scored **98.4 percentile in CUET English (2022)**; allotted **DU North Campus** in 1st round; received the **Student of the Year award (LIC)**; secured **1st prizes** in multiple **elocution, essay, and quiz competitions**.
- **Editor in Chief** of **THE NIET TIMES** newsletter's summer edition of 2025
- **Smart India Hackathon: Leader of one of the top 30 teams nominated from college** – Led the team in developing an **AI-driven Appointment Allocation System**, selected under the **Himachal Pradesh Government initiative**.
- **Co-Head, Geeks for Geeks NIET** and **Documentation Head, Signodes IoT Club**, managing and mentoring across technical teams of **50+ members, event planning and promotion**.

Certifications

- Problem Solving in Data Structures and Algorithms in Java (HackerRank), Java Programming Fundamentals (Infosys)
- **Human-Centered Design** (University of Toronto) : **Empathic user research, MVP Building and prototype testing through Agile methodologies**, Mobile App Development – Advanced Applications with ReactJS (Infosys),
- Google Data Analytics Course (Google), Machine Learning (Supervised & Unsupervised) (DeepLearning.AI)
- Python for Data Science, AI & Web Development (IBM), Introduction to AI & Cloud Computing (IBM)
