SURAJ GUPTA

+91-6391472602 | sgupta5534@gmail.com | Suraj Gupta | Suraj Gupta

Summary

Motivated **Computer Science (Cyber Security)** undergraduate with hands-on experience in **full-stack Java** development using Spring Boot, REST APIs, and MySQL, and a published research paper in AI-driven cybersecurity. Skilled in securing and building scalable backend systems with a strong foundation in network security, Linux, and cloud-ready microservices architecture

Education

Noida Institute of Engineering and Technology, Greater Noida

B.Tech in Computer Science and Engineering (Cyber Security) Nov 2022 – June 2026

Skills

- **Languages**: JAVA, Python
- **Framework & Technologies**: Spring Boot, Spring Data JPA, Hibernate, JDBC, Servlets, Spring Security, Microservices, RESTful APIs
- **Databases:** MySQL, SQL
- **Core Concepts:** Object-Oriented Programming (OOP), Backend Development, Database Management, API Security, SDLC
- **Tools**: Git/GitHub, Linux, Eclipse, IntelliJ IDEA, Wireshark, Burp Suite
- **Professional Skills**: Problem Solving, Leadership, Team Player

Training or Certifications

- Exploiting and Securing Vulnerabilities in Java Applications : COURSERA
- Hands-on Introduction to Linux Commands and Shell Scripting : COURSERA
- CCNA: Switching, Routing, and Wireless Essentials : CISCO
- Intro to AI : COURSERA

Projects

Movie Ticket Booking System

- Developed a full-stack Movie Ticket Booking System using Java, **Servlets**, **Spring Boot**, and **MySQL**.
- Implemented features for browsing movies, selecting seats, and completing bookings with backend logic and database integration.
- Built **REST APIs** for secure login and ticket booking with validation and error handling.

Train Management System

- Developed a **Train Management System** using **Spring Boot**, **Spring Data JPA**, and **MySQL**.
- Designed **Train, Station, and Schedule entities** with Hibernate and implemented **RESTful CRUD APIs.**
- Followed **MVC architecture** and built a full-stack solution demonstrating end-to-end development skills.

Achievements

Published a research paper titled "Hybrid Deep Learning and Threat Intelligence Framework for AI-Enabled Cyber Incident Response and Safety Web Portal" in the Journal of Scientific Innovation and Advanced Research (JSIAR).
