Alok Singh

Java Backend Developer — Spring Boot Specialist
+91-9693394205 | Aloksinghdbms@gmail.com | linkedin.com/in/alok-singh-30a8481a0 | github.com/alok-singh
Greater Noida, India

Professional Summary

Results-driven **Java Backend Developer** with expertise in building secure, scalable enterprise applications using **Spring Boot and Spring MVC**. Proven experience in implementing complex business logic, **RBAC security systems**, and database optimization. Skilled in **Docker and Linux** environments with a strong focus on producing clean, maintainable code for high-performance software solutions.

Technical Skills

Core Development: Java (OOP, Collections, Multithreading), SQL (MySQL, PostgreSQL), JavaScript, HTML/CSS
Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Spring Security (JWT), Hibernate, Maven
Tools & Platforms: Docker, Linux, Git/GitHub, Postman, Swagger/OpenAPI, Render Cloud
Key Concepts: RESTful APIs, **Role Based Access Control (RBAC), Server-side Pagination**, Clean Code

Professional Experience

Cloud Analogy Noida, India
Java Developer Intern Oct 2025 – Present

- Developing robust backend modules using **Spring Boot** for enterprise-level CRM cloud applications.
- Optimized database interaction layers with **Spring Data JPA**, achieving a 20% improvement in data retrieval speed.
- Collaborating on the full SDLC, from REST API design to deployment, ensuring 100% alignment with requirements.
- Utilizing **Git** for version control and participating in code reviews to maintain high-quality code standards.

Strategic Projects

1. Electronic Health Records (EHR) System *Java, Spring Boot, MySQL, JWT*
Comprehensive Digital Healthcare Solution

- Engineered a secure system with **Role-Based Access Control (RBAC)** managing **5 distinct roles**: Admin, Doctor, Nurse, Pharmacist, and Patient.
- Implemented **Server-side Pagination** for large medical datasets, reducing initial dashboard load time by 50%.
- Secured sensitive patient data using **JWT Authentication** and Spring Security, ensuring stateless, encrypted communication.
- Managed end-to-end workflows including appointment scheduling, medical test reports, and pharmacy dispensing.
- Utilized **Spring Data JPA** to handle complex relationships between medical records and user profiles.

2. Intelligent Fitness Tracker Application *Spring Boot, Spring MVC, PostgreSQL, Docker*
Full-Stack Performance Analytics Platform

- Developed a scalable platform to monitor physical activities and calories burned using **Spring MVC** for dashboards.
- Integrated **Pagination and Sorting** via Spring Data JPA to efficiently handle thousands of workout logs.
- **Containerized** the environment with **Docker**, ensuring consistent performance and easy deployment on Render cloud.
- Designed responsive REST APIs to provide real-time fitness insights and goal-tracking metrics to users.

3. Online Shopping Management System *Java, Spring Boot, Hibernate, MySQL*
Enterprise E-Commerce Backend Engine

- Designed a high-performance catalog management system using **Spring Boot** to handle concurrent user searches.
- Implemented secure checkout workflows and inventory management logic using **Hibernate ORM**.
- Optimized MySQL database schemas and indexing to ensure data integrity during high-volume transaction periods.

Education

Noida Institute of Engineering and Technology *Master of Computer Applications (MCA)* | 2024 – 2026
International School of Management, Patna *Bachelor of Computer Applications (BCA)* | 2021 – 2024

Honors & Certifications

AWS Academy Graduate: Cloud Foundations | **Spark 3.0:** Job Ready Java Full Stack Certification
