PROFILE

AI-Integrated Full Stack Developer | MERN Stack & LLM Specialist Versatile engineer bridging the gap between traditional web development and Generative AI. Proficient in Java, Python, and SQL, with hands-on experience deploying AI solutions using GPT-5 and Claude 4. Expert in full-lifecycle development—from schema design in MongoDB to rapid prototyping with Gamma. Strong advocate for effective team communication and agile collaboration.

SKILLS

- • AI Tools : Llama 4 , Claude 4, Gamma, Gemini 2.0, GPT 5.
- • Full Stack (MERN), MongoDB(Compass, Atlas).
- •Language : Java, Python, C, C++, SQL .
- • Tools : Git/Github, VS Code, Postman.
- • WorkPlace Communication , Effective Team Work.

WORK EXPERIENCE

Tragencef Private Limited — Training (Employee Expense Management)

- Completed hands-on training in Employee Expense Management systems.
- Assisted in tracking, verifying, and documenting employee expense reports for data accuracy.
- Gained practical exposure to corporate finance operations and expense approval workflows.
- Utilized digital tools to manage expense records and generate detailed reports.

PROJECTS

Online Attendance Management System

- Developed a web-based Student Activity Tracker to monitor and manage student activities efficiently.
- Implemented features for adding, updating, and tracking student tasks, attendance, and progress.
- Designed a user-friendly interface using HTML, CSS, and JavaScript.
- Built a secure backend using Node.js and Express.js with MongoDB for data storage.
- Enabled role-based access for students and admins to ensure proper data management.

Tic-Tac-Toe Web Application

- Built an interactive 2-player web-based game using HTML5, CSS3, and JavaScript.
- Implemented complex win-logic algorithms and draw-game detection to ensure smooth gameplay.
- Designed a responsive and clean UI with focus on efficient DOM manipulation and event handling.

EDUCATION

Master of Computer Application (pursuing) 2024-26

Noida Institute of Engineering and Technology ,Knowledge Park 3 , Gr. Noida ,UP.

CERTIFICATIONS

- OOPs in Java (Infosys Spring Board)
- Python Basics (Infosys Spring Board)
- AWS (Amazon AWS)
- Web Technology (Infosys Spring Board)
- SQL (Oracle)
- Cloud Computing(Infosys Spring Board)
