MASTER OF COMPUTER APPLICATION | AWS

Residential - Noida, Uttar Pradesh, India

PROFESSIONAL SUMMARY

Motivated MCA student with hands-on experience in AWS cloud architecture, SQL, and Python. Passionate about building scalable solutions and seeking an opportunity to apply technical skills in a real-world environment.

Education

- **Master of Computer Applications (MCA)**
  NIET (Noida Institute of Engineering & Technology),
  Greater Noida
  2024– Present
- **Bachelor of Computer Applications (BCA)**
  Doon Business School, Dehradun, Uttarakhand
  2021 – 2024
- Noble Public School (CBSE) Gajraula, Amroha
  U.P Xth (2019), XIIth (2021)

Projects: AWS Three-Tier Web Architecture

- Designed and implemented a **3-tier web architecture on AWS,** including Web, Application, and Database layers
- Deployed **EC2 instances** across public and private subnets within a **VPC** for secure and scalable infrastructure
- Configured **Application Load Balancer (ELB)** to distribute incoming traffic and improve availability
- Implemented **Auto Scaling Groups** to ensure high availability and handle dynamic traffic loads
- Managed **IAM roles and policies** to control secure access to AWS resources
- Utilized **Amazon S3** for static storage and resource management
- Integrated **Amazon RDS (Aurora MySQL)** as a multi-AZ database for high availability and performance
- Configured Security Groups and NACLs to control inbound and outbound traffic
- Monitored system performance using **Amazon CloudWatch** (logs, metrics, alarms)
- Ensured network security using **public/private subnets, security groups, and routing configurations**

Technical Skills

- **Python (Basic) | HTML, CSS**
- **SQL/MySQL (Basic querying & data handling)**
- **AWS (EC2, S3, VPC, IAM, RDS, CloudWatch, Auto Scaling)**
- **Linux (Basic command-line operations)**
- **Computer Networks | MS Office**

Key Highlights

- Completed **AWS Cloud training** (hands-on labs & deployment)
- Hands-on experience with **AWS 3-tier architecture**
- Basic knowledge of **cloud** infrastructure & networking
- Strong **interest in cloud computing & backend systems**
- Currently undergoing a 6-month **DevOps training program** from Ducat Institute
- Certified in **AWS Cloud Foundation** / **AWS Certified** Cloud Practitioner
- Developing practical skills in cloud infrastructure, **Linux, and deployment concepts**

Languages

- English
- Hindi- Native

Interest

- Tech blogs & YouTube learning
- Exploring open-source tools
