Profile

Data Analyst, MCA with hands-on experience in Python, SQL, Pandas, and NumPy. Built real-world projects in credit risk evaluation and data-driven decision making. Skilled at processing and analyzing datasets to generate actionable business insights. Eager to contribute analytical thinking and problem-solving ability to a dynamic data team.

Skills Summary

- **Programming & Querying :** Pyhton, SQL.
- **Frameworks :** Numpy, Pandas.
- **Tools :** Power Bi, Excel, Powerpoint, GitHub, Tableau, MySQL.
- **Plateforms :** Pycharm, Jupyter Notebook, Visual Studio Code,
- **Core Computer Science : :** Data Structures, Object-Oriented Programming (OOP), Multithreading, Problem Solving.

Projects

Marketing Funnel Analsis using Analytics **October 25 – April 26**

- Analyzed customer journey across different stages of the marketing funnel.
- Identified drop-off points where users leave the process.
- Used data analytics techniques to understand user behavior.
- Created reports/visualizations to present insights clearly**.**

Tools & technology : Python (NumPy, Pandas) for data analysis, Power BI & Tableau for visualization, and Google Sheets/Excel for data handling.

CREDIT RISK EVALUATION AND PRIORITIZATION PLATFORM | PYTHON, SQL **November 25 – April 25**

- Built a platform to analyze financial and customer data for evaluating credit risk levels.
- Used Python and SQL to process datasets and identify high-risk and low-risk customers.
- Implemented logic to prioritize loan applications based on calculated risk scores.
- Generated insights to support data-driven decision making in financial risk assessment.

Tools: Python, SQL, Jupyter Notebook, Pandas, NumPy.

Education

- **Noida Institute of Engineering and Technology [NIET], Greater Noida** **Greater Noida, India**
  Master of Computer Applications (MCA); CGPA : 8.48 **2025 - 2027**
- **D.S. College, Aligarh** Aligarh, India
  Bachelor of Computer Applications (BCA); CGPA: 7.47 **2022 - 2025**

Activities and Interests

- Exploring AI tools and software development trends.
- Coding practice and problem solving.
- Active volunteer in organizing college activities and events.
