COURSEWORK / SKILLS

- Operating Systems
- OOPS Concept
- WIX Studio
- Frontend Development
- DBMS
- Basics of Networking
- Baisc Wordpress

OBJECTIVE

- Motivated and detail-oriented IT graduate seeking a growth-focused role in a forward-thinking organization. Eager to contribute technical skills, database knowledge, and strong communication abilities to real-world projects. Looking for an opportunity to learn, collaborate, and add value through both problem-solving and teamwork in the field of information technology

PROJECTS

Make a Website for Topsqill pvt. ltd. | Wix Studio **03 2025**

- Led the end-to-end creation of a professional training website for TopSqill Academy using Wix Studio, with a strong focus on structured content flow and learner engagement. The platform offers organized course pages, adaptive layouts for all screen sizes, and a clean interface that supports intuitive navigation. Strategic use of visual hierarchy and modular design helped ensure clarity across different learning modules. The site was tailored to enhance accessibility, improve learning retention, and provide a seamless experience for users exploring digital training paths.

React Food Order Web Application | React.js **04 2024**

- This project is a simple yet functional food ordering system designed with React.js, and Bootstrap. It allows users to browse through a menu of available dishes, select their items, and place an order with ease. The interface is user-friendly, ensuring a smooth and engaging experience..

Topsqill Realty website | React.js, Node.js, Express.js, Workbench SQL etc. **07 2025**

- Built a custom full-stack real estate website for TopSqill Realty using React and Node.js. The platform features dynamic property listings, responsive design, and fast-loading pages to ensure smooth user experience across devices. Added contact forms and implemented SEO-friendly structure to improve discoverability and drive user interaction.

Learning Management System | React.js, Node.js, Express.js, Workbench SQL etc. **05 2025**

- Built an interactive e-learning platform designed to simplify online education and role-based access management. Using React for the frontend and Node.js for the backend, the system supports course uploads, real-time learning progress tracking, and secure user roles for admins, instructors, and students. The UI was crafted to be responsive and intuitive, allowing learners to focus on content while admins manage courses efficiently. Data synchronization between client and server was optimized for performance and reliability. The platform balances functionality and usability, making it ideal for modern digital learning needs.

Property Management Services | React.js, Node.js, Express.js, Workbench SQL etc. **05 2025**

- Developed a full-stack property management application to help property owners and managers efficiently manage listings, tenant information, and availability. Implemented a responsive and user-friendly interface using React and Node.js, ensuring seamless performance across devices. Integrated key features such as advanced property filters, contact forms, and a centralized dashboard for daily operations. Focused on clear data organization, intuitive navigation, and optimized user experience to streamline property management workflows.

Make a Website in Wix Studio | Wix Studio **05 2025**

- Led the creation of an IT service website for TopSqill using Wix Studio, aimed at clearly presenting services such as software development, web solutions, and IT consulting. The layout was structured for easy navigation, clean visuals, and mobile responsiveness. SEO best practices were applied to improve online visibility and reach. Wix Studio's advanced design features were used to ensure consistent branding and strong performance across devices. The final result delivered a user-friendly platform that effectively communicates technical offerings to clients and partners.

INTERNSHIP

Topsqill Pvt Ltd **02 2025 – working**
web Developer *Noida, India*

- **Completed a frontend development internship, where I gained hands-on experience with real projects and strengthened my skills in modern UI design, responsive layouts, and clean coding practices. Worked in a supportive and collaborative environment that helped me grow both technically and professionally. Consistently delivered quality work and took initiative to learn beyond assigned tasks.**

National Capital Region Transport Corporation(NCRTC) **02 2023 – 11 2023**
Jr. Frontend Developer *INA, New-Delhi*

- Completed a 6-month internship in a supportive company environment that encouraged growth and learning. During this time, I expanded my knowledge of modern web technologies, including React.js and Node.js, while contributing to real-world development tasks. The experience strengthened my ability to adapt quickly, collaborate with teams, and apply my skills in practical scenarios.

OctaNet Pvt Ltd **06 2024 – 08 2024**
Web Developer *Online*

- **Completed a 2-month online internship in web development, where I worked on real-world tasks in a fully remote environment. This experience improved my ability to manage time, communicate effectively in virtual teams, and deliver high-quality code independently. Gained valuable exposure to both front-end and back-end workflows while becoming more confident in remote collaboration tools and practices.**

TECHNICAL SKILLS

Languages: Python, C, JavaScript, SQL, NoSQL
Developer Tools: VS Code, Pycharm, Android Studio
Technologies/Frameworks: Linux, GitHub, ReactJS, NodeJS, ExpressJS,
