vivektyagi995837@gmail.com
Ghaziabad, India 201001

Looking for an environment to enhance and contribute to the progress of the organization. Hardworking and focused altitude is my strength and ready to lake up any challenging project. Detail-oriented, organized and meticulous employee. Works at fast pace to meet fight deadlines. Enthusiastic team player ready to contribute to company success. Creative Developer with proficiency in monitoring software performance tests and revising programs for corrections. First-rate critical thinking and organizational skills. Excellent understanding of basic development principles and programming for diverse operating systems.

Skills

- **Unity Proficiency: A strong understanding of the Unity game engine is fundamental. This Includes familiarity with the Unity Editor, scripting (C#), scene management, physics, animations, and UI development.**
- **Programming Languages: Proficiency in C# is crucial for Unity development, asit's the primary scripting language. Developers should be comfortable with object-oriented programming concepts. data structures, and algorithms.**
- **Mathematics and Physics: Knowledge of mathematics {including algebra, trigonometry, and calculus) is important for implementing game mechanics, physics simulations, and animations accurately.**
- **Graphics and Shaders: Familiarity with graphics programming and shaders is beneficial for creating visually stunning games. This includes knowledge of rendering pipelines, lighting, shaders, and effects.**
- **Problem-Solving Skills: Unity developers often encounter complex technical challenges that require creative problem-solving skills and the ability to troubleshoot and debug issues effectively.**
- **VR Hardware Knowledge: Famillarity with variousVR hardware platforms such as Oculus Ritt, HTC Vive, PlayStation VR, and others. Understanding their capablities, limitations, and how to develop for them is crucial.**

- **VR Interaction Design: Designing Interactions specifically for VR environments requires a different approach compared to traditional 2D interfaces. This involves understanding concepts like hand presence, motion controllers, gaze-based interactions, and locomotion techniques {teleportation, smooth locomolion, etc.).**
- **Optimization for Performance: VR applications demand high performance to maintain a smooth and comfortable experience. This Involves optimizing rendering, reducing latency, and managing resources efficiently.**
- **Testing and Debugging: Testing VR applications requires specialized equipment and procedures to ensure compatibility and usability across different VR plotforms.**
- **Proficient in Unity and C# with hands-on experience in ARKit and ARCore development. Strong understanding of 3D modeling and animation tools such as Blender and Maya, enabling seamless integration of assets in interactive AR/VR experiences.**
- **IT Support Manager: Experienced IT Support Manager with a strong background in system administration, network management, and technical support. Skilled in troubleshooting, optimizing IT infrastructure, and leading support teams to ensure seamless operations. Adept at implementing security protocols, managing software/hardware deployments, and enhancing user experience through efficient IT solutions.**
- **Team Lead & Technical Support Manager:** Team Lead and Technical Support Manager **with expertise in overseeing technical teams, ensuring seamless IT operations, and delivering top-notch customer support. Skilled in** team management, troubleshooting, process optimization, and performance enhancement**. Adept at** mentoring teams, resolving complex technical issues, and improving service efficiency **to meet business goals. Strong communicator with a problem-solving mindset, driving innovation and operational excellence.**

Work History

Jr. XR Developer (January 2021 to October 2023)

Simulanis Solutions Pvt. Ltd, Noida

- **Investigated new and emerging software applications to select and implement administrative information systems.**
- **Collaborated with cross-functional teams to ensure seamless integration of new features.**
- **Documented software development methodologies In technical manuals to be used by IT personnel in future projects.**
- **Designed and developed forward-thinking systems that meet user needs and improve productivity.**
- **Designed reusable and reliable code for use within distributed cloud environments.**
- **Implemented rigorous testing procedures to Identify and resolve potential bugs before deployment.**

- **Acquired hands-on expertise in Photon by integrating advanced XR modules, optimizing performance, and deploying scalable solutions for enterprise use cases.**

- **Updated old code bases to modern development standards, improving functionality.**

XR Developer /Lead Unity Developer (November 2023 To May 2024)
MadVR Solutions Private Limited, Guwahati

- **Adapted quickly to new technologies and programming languages, enhancing overall team productivity.**
- **Developed software for desktop and mobile operating systems.**
- **Designed, developed, and implemented software applications for website based on analyzed requirements and understanding of industry technical standards.**
- **Participated in software field testing to verify performance of developed projects.**
- **Revised, modularized and updated old code bases to modern development standards, reducing operating costs, and improving functionality.**
- **Tuned systems to boost performance.**
- **Engineered real-time communication features using Socket.IO, enabling seamless multiplayer interactions, live updates, and optimized event-driven data flow.**
- **Developed next generation integration platform for Internal applicatlons.**

AR Developer / Senior Unity Developer (June 2024 To August 2024)
GONG LABS Private Limited, Gurugram

- **Developed and deployed AR applications using Unity and AR frameworks (e.g., ARKit, ARCore).**
- **Collaborated with cross-functional teams to design interactive and immersive user experiences.**
- **Optimized performance and ensured compatibility across various devices.**
- **Implemented 3D modeling and animation for enhanced visual quality.**
- **Integrated Socket.IO to enable real-time multiplayer AR interactions, ensuring seamless synchronization and responsive user experiences across devices.**
- **Conducted user testing and iterated based on feedback to improve functionality.**

Team Lead & Technical Support Manager (August 2024 To March 2025)
Anytech Ventures Private Limited, Noida

- **Led cross-functional teams to deliver high-quality AR/VR gaming projects using Unity.**
- **Managed project planning, sprints, and resources to meet deadlines and quality standards.**
- **Collaborated with designers and artists to create immersive AR/VR gameplay experiences.**

- **Oversaw the integration of Socket.IO for real-time multiplayer features, improving system scalability, reducing latency, and enhancing overall player engagement.**
- **Directed technical support operations and resolved complex AR/VR issues promptly.**

Technical Lead / Unity Developer (April 2025 To Present)
Techworld Solutions Private Limited, Faridabad

• Lead the design and development of interactive applications and games using Unity, ensuring scalable architecture and high performance.

• Collaborate with cross-functional teams (backend, UI/UX, QA) to deliver seamless real-time features and maintain technical quality standards.

• Implement and optimize multiplayer and real-time functionalities using technologies like Socket.IO to enhance user engagement and live interactions.

• Oversee code reviews, debugging, and performance optimization to ensure stable builds across multiple platforms (Android, iOS, Web).

• Translate product requirements into technical solutions, providing mentorship and guidance to junior developers.

• Continuously improve development workflows, tools, and deployment processes to accelerate delivery and maintain product reliability.

Education

- **High School : Science Education Government InterCollege - Ghaziabad, India Board: U.P Board Final Grade: [Number% 72] .**
- **Intermediate Passed: Art Education Government Inter College- Ghaziabad, India Board: U.P Final Grade: [Number% 60].**
- **BCA (Bachelors of Computer Application): Computer And Information Science Glocal University - Saharanpur, Uttar Pradesh.**
- **Game Development & XR Development Course: Computer Engineering Technology Simulanis Academy Pvt l.td - Noida, India .**

Software

- **Unity Engine** •••
- **Oculus Rift** ••••
- **Git & Git desktop** ••••
- **MRTK** ••
