Roushan Bharti

+919354659901 | Noida, India | roushanb843@gmail.com | LinkedIn | LeetCode | GitHub

Skills:

- **Frontend** – HTML, CSS, WordPress
- **Backend** – SQL, MySQL, Python
- **Programming** – Python, Java
- **Relevant Coursework** – Cloud fundamentals, Operating System, Cyber security, Networking
- **Soft Skills** – Presentation skills, Teamwork and collaboration, Effective Communication, Problem-solving, Adaptability

Experience:

Internshala Trainings August2023

Machine Learning

- Completed a Machine Learning internship where I built and evaluated three predictive models with supervised learning techniques, achieving up to 85% accuracy on test data using Python and scikit-learn.
- Gained hands-on experience in Python programming for data analysis, model building, and algorithm implementation.

Projects:

FareFusion : Comparing Cab Prices Across Different Platforms:

- Designed and developed a smart fare comparison application that aggregates and analyzes real-time cab fare data from multiple ride-hailing platforms to help users make cost-effective travel decisions.
- Implemented REST APIs and integrated platform-specific SDKs to fetch live pricing, using intelligent algorithms to provide optimal fare comparisons and suggest the best available options.

Billing System : A Desktop Application for Shop Billing and Data Management

- Developed a Python-based billing application for retail shops to generate bills and manage product data.
- Implemented a GUI using Tkinter, with features for item entry, total calculation, and printable bill generation.
- Utilized libraries like os and message box for file handling and user interaction.
- Simple to deploy and run(*billing_system.py*), with dependencies installable via“pip install tkinter”.

Achievements:

- Participated in Geeks for Geeks Hackathon –an 8-hour coding challenge focused on medical issues and their solutions; Collaborated with a team to design and prototype a website for tracking personal health and providing physical therapy guidance.
- Won the Tech Quiz Competition at NIET’s Ebulliance-24, the institute’s Annual Technical Fest and Sports Meet.

Education:

- **Noida Institute of Engineering and Technology** Greater Noida
  Bachelor of Technology – Computer Science and Engineering – GPA : 7.63 2022-2026
- **Nilgiri Hills Public School** Noida
  12th Standard (CBSE) – Percentage : 86.3% 2022
- **Nilgiri Hills Public School** Noida
  10th Standard (CBSE) – Percentage : 86.83% 2020

Certifications:

- **Python Classes and Inheritance** – Coursera
- **Data Structures** – Data Structures and Algorithms, Coursera
- **Introduction to Artificial Intelligence** – IBM, Coursera
- **Design-Led Strategy** – The University of Sydney, Coursera
- **Cyber Security and Applied Ethical Hacking** – Infosys Springboard
- **Network Defense Essentials** – EC Council
- **React JS**–Infosys Springboard
