Matriculation (CBSE) *67.9%*

Projects

Air School Management System (ASMS) | *Python, Flask, SQL, HTML, CSS, JavaScript, Bootstrap*

- Developed a web-based School Management System to streamline academic and administrative operations.
- Implemented modules for student management, attendance tracking, and examination management.
- Designed role-based dashboards for Admin, Faculty, Students, and Finance Officers.
- Built backend APIs using Python Flask framework and integrated SQL database.
- Implemented secure login authentication and role-based access control.
- GitHub Repository: View Project

Technical Skills

- **Programming Languages:** Python, C, JavaScript
- **Web Development:** HTML5, CSS3, JavaScript
- **Backend Development:** Flask
- **Database:** SQL
- **Cloud & DevOps:** AWS, DevOps Basics
- **Software Testing:** Manual Testing, Basic QA Concepts
- **Tools:** Git, GitHub, Excel, Power BI, VS Code
- **Operating Systems:** Linux

Certifications

- Python Foundation Certification
- Introduction to Python
- Linux for Beginners
- Java Concepts
- Data Structures and Algorithms using Python
- Basics of Python – OnWingspan Certification

Soft Skills

- Communication and Presentation Skills
- Team Collaboration
- Problem Solving
- Leadership and Coordination
- Decision Making
