## SUMMARY

Computer Science undergraduate with hands-on experience in Large Language Models (LLMs), software development, and problem-solving. Proficient in building scalable web applications and optimizing AI systems through model evaluation and prompt engineering. Confident and eager to learn, grow, and continuously improve while contributing to building efficient and intelligent solutions.

## TECHNICAL SKILLS

- **Languages:** Java, Python, JavaScript
- **Web Development:** HTML, CSS, ReactJS, Node.js
- **AI/ML:** OpenCV, NLP, LLM Evaluation, Prompt Engineering
- **Databases**: MySQL, SQLite
- **Tools:** Git, GitHub, VS Code, Kali Linux
- **Core Concepts:** Data Structures & Algorithms, DBMS, OS, Networking

## WORK EXPERIENCE

**Post LLM Trainee Intern – Ethara AI** **Feb 2026 - Present**

- Evaluated and improved outputs of Large Language Models (LLMs) for accuracy and relevance
- Identified hallucinations, biases, and inconsistencies in AI-generated responses
- Performed data annotation and quality analysis to enhance model performance
- Contributed to prompt engineering and response optimization strategies

**Software Engineering Job Simulation – J.P. Morgan (Virtual)** **April 2025 - May 2025**

- Completed practical tasks involving debugging, code analysis, and system design concepts
- Worked on financial data handling and improved code efficiency through optimization
- Gained exposure to real-world software engineering workflows and industry best practices

## PROJECTS

**Age & Gender Detection using OpenCV**

- Built a real-time face detection and prediction system using OpenCV DNN and Caffe models
- Implemented age and gender classification using webcam and static images
- Optimized model loading and performance

**AnimeVerse – Anime E-Commerce Website**

- Developed a full-featured responsive e-commerce platform
- Implemented cart system using localStorage and dynamic product handling
- Designed interactive UI with smooth navigation and animations

**NAS Server using Kali Linux**

- Built a network-attached storage system using Samba
- Configured network sharing, access control, and basic security features

## EDUCATION

- B. Tech CSE | Noida Institute of Engineering and Technology|Gr. Noida| **2022 - 2026**
- XII (CBSE) |Gyandeep Academy| Varanasi | **April 2021**
- X (CBSE) | Gyandeep Academy | Varanasi | **April 2019**
