HARSH JAISWAL

Delhi, India | +91 92349 37707 | harshjais1409@gmail.com | linkedin.com/in/harshjaiswal-340bb9331

Results-driven BI Developer and Data Analyst proficient in Python, SQL, Power BI, DAX, Power Query, and ETL pipeline design. Experienced in star schema data modelling, data warehousing, EDA, and automated KPI reporting. MCA candidate with a proven track record of delivering dashboards and ML solutions that drive measurable business outcomes.

TECHNICAL SKILLS

- Python
- Postgres SQL.
- Power BI.
- DAX.
- Data Modelling.
- Data Storytelling.
- Advanced Excel.
- Power Query.
- Pandas / Numpy.
- Seaborn/ Matplotlib
- Data Visualization
- Automation Tools (n8n)
- Scikit-learn
- Supervised Learning
- Unsupervised Learning
- Exploratory Data Analysis (EDA)
- Model Training
- Git

WORK EXPERIENCE

Business Intelligence Developer | Eureka Outsourcing Solutions Pvt. Ltd., Noida. 02/2026 – Present

- Designed 10+ Power BI dashboards using DAX and Power Query, reducing manual reporting effort by 60%.
- Built ETL pipelines and star schema data models consolidating 5+ sources, improving data accuracy by 40%.
- Automated Python (Pandas, NumPy) workflows, cutting processing time by 50% and eliminating human error.
- Developed SQL-based KPI frameworks using data warehousing best practices, boosting efficiency by 25%.

Tools used: *Power BI, DAX, Power Query, Python, Pandas, NumPy, SQL, ETL Pipelines, Star Schema*

Data Analyst Intern | Labmentix Private Limited, Noida. 12/2025 – 03/2026

- Cleaned and preprocessed 3+ datasets using Python and SQL, reducing data prep time by 35%.
- Conducted EDA on 50,000+ records, surfacing insights that informed 3 key business decisions.
- Built Power BI dashboards with Power Query ETL; defined 15+ KPIs for weekly stakeholder reviews.
- Documented workflows on GitHub, reducing analyst onboarding time by 30%.

Tools used: *Power BI, Power Query, Python, SQL, Pandas, GitHub, EDA*

PROJECTS

Sales Performance Dashboard | Power BI, DAX, Power Query, SQL

- Built a star schema model with DAX measures and Power Query ETL pipelines; improved reporting speed by 45%.
- Designed interactive visuals with slicers, KPI cards, and drill-through pages for regional sales tracking.
- Automated data refresh workflows, eliminating manual report generation and saving 5+ hours per week.

Customer Churn Prediction Model | Python, Scikit-learn, Pandas, Git

- Developed a supervised ML classifier (Random Forest) achieving 87% accuracy on a 20,000-record dataset.
- Performed feature engineering and cross-validation to improve model precision and reduce false positives by 18%.
- Visualised churn risk segments using Matplotlib and Seaborn to enable targeted retention strategies.

SQL Business Case Study | SQL, Data Modelling, Data Warehousing

- Designed a data warehouse schema with fact and dimension tables; wrote 20+ SQL queries using CTEs and window functions.
- Reduced ad-hoc query execution time by 40% through indexing strategies and query optimisation.
- Generated business insights on revenue trends and customer segmentation for stakeholder reporting.

EDA – E-Commerce Dataset | Python, Pandas, Matplotlib, Seaborn

- Performed EDA on 100K+ records; identified 5 key trends driving a 20% uplift in marketing decisions.
- Cleaned and standardised raw data by handling nulls, outliers, and inconsistent formats using Pandas.
- Created 10+ visualisations including heatmaps, distribution plots, and time-series charts.

EDUCATION

Master of Computer Applications (MCA) – Computer Science. 09/2024 – 06/2026
Noida Institute of Engineering and Technology (NIET), Noida

Bachelor of Computer Applications (BCA) – Computer Science 08/2021 – 07/2024
International School of Management

CERTIFICATIONS

- Advanced Certification in Data Analytics & Gen AI Engineering – AlmaBetter
- Tata GenAI Powered Data Analytics – Completion Certificate
