VAIBHAV RAI

+91-7007135271 | vr19012003@gmail.com | linkedin.com/in/Vaibhav | github.com/Vaibhav

Full-stack developer skilled in React, Java, Spring Boot, SQL, and front-end engineering. Strong in building scalable applications, intuitive interfaces, and automated systems. Proven leadership through hackathon wins, research presentations, and active involvement in campus clubs, delivering user-focused, high-impact solutions.

TECHNICAL SKILLS

- **Languages:** Java, C, SQL, JavaScript, HTML/CSS
- **Frameworks/Libraries:** React.js, Spring Boot, Bootstrap
- **Databases:** MySQL
- **Developer Tools:** GitHub, GitHub Copilot, VS Code, Eclipse, Figma, Postman
- **Soft Skills**: Critical Thinking, Problem Solving, Team Management, Communication

EDUCATION

Bachelor of Technology in Computer Science and Engineering- CGPA 7.69 (current) Nov 2022 - Ongoing
Noida Institute of Engineering and Technology (NIET), Greater Noida

- Specialization in Internet of Things.
- Review Paper on IoT-Based Plant Health Monitoring Systems — currently under review at River Publishers.

Higher Secondary Certificate (HSC) with 79.8% **Completed in Nov 2021**
Rajkiya Jubilee Inter College, Gorakhpur - Uttar Pradesh Board

Senior Secondary Certificate (SSC) with 95.6% **Completed in March 2019**
Surmount International School, Gorakhpur - CBSE Board

PROJECTS AND RESEARCH WORK

JalQuest – Gamified Water Conservation Platform

- Led the development of a hackathon-winning full-stack web app promoting water conservation.
- Developed a gamified platform with task modules, leaderboards, and image-based verification, improving task accuracy by 25%.
- Built a scalable Spring Boot + MySQL backend with 22% faster processing and 99% uptime.

AI- Based Plant Health Monitoring Using Raspberry Pi

- Built an AI-based plant disease detection system with image processing and ML, achieving 98% accuracy.
- Developed a real-time monitoring dashboard with automated alerts and cloud connectivity.
- Optimized multi-sensor performance and presented results in a review paper (under review).

PROFESSIONAL EXPERIENCE

LLM Post Training Intern | Ethara AI **Feb 2026 – Present**

- Built evaluation frameworks for LLM outputs using ranking, scoring, and preference modeling.
- Analyzed model failures (hallucinations, factual errors, unsafe outputs) and improved validation workflows.
- Worked on ML pipelines, including preprocessing, prompt engineering, and dataset optimization.

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, French (Beginner Level).
- **Certifications:** Java Programming Fundamentals- Infosys , React JS- Infosys, Interfacing with the Arduino- Coursera
- **Achievements and Leadership:**
  - **Hack x NIET 2.0** (April 2024)- Winners, **IoTRON 2.0** (October 2023)- Runners Up
  - **President** at **Indian Red Cross Society NIET** Since Aug 2025 leading humanitarian initiatives and coordinating campus-wide social outreach activities
  - Led the **Social Media** for **Sangrachna- The Editorial Club**, increasing visibility and content reach through strategic planning and various creative campaigns
