Education

- **Noida Institute of Engineering and Technology** — Greater Noida, India
  Bachelor of Technology – Computer Science — *Nov 2022 – Present*
  - **Relevant Coursework:** Data Structures, DBMS, Operating Systems, Computer Networks, Cloud Computing, OOP
- **Seth Anandram Jaipuria School** — Lucknow, India
  Senior Secondary (XII): 79% — Secondary (X): 89.6% — *2020 – 2022*

Skills Summary

- **Languages** Python, Java, SQL, JavaScript, HTML, CSS
- **Tools & Frameworks** n8n, Git, MySQL, ChatGPT, Claude, Microsoft Copilot
- **Technologies** LLM Integration, API Integration, Workflow Automation, REST APIs
- **Platforms** AWS, Windows

Experience

- **Ethara AI** — Gurgaon, India (Remote)
  LLM Post Training Intern — *Jan 2026 – Present*
  - Worked on post-training workflows for LLMs including dataset preparation, response evaluation, and quality improvement.
  - Performed prompt optimization, alignment tuning, and benchmarking to improve model reliability and accuracy.
  - Collaborated on improving real-world performance of AI systems across diverse use cases.
- **Hindustan Aeronautics Limited (HAL)** — Lucknow
  Technical Trainee — *July 2025*
  - Gained exposure to engineering systems, manufacturing workflows, and industrial processes.

Projects

- **AI Job Copilot (n8n + LLM Workflow)** Built an AI system for automated cover letter generation and job-candidate matching [GitHub]
  Designed multi-step LLM pipelines using n8n for orchestration and structured outputs
  Integrated APIs and webhooks for real-time frontend-backend communication
  Tech: n8n, JavaScript, HTML, CSS, Ollama (LLaMA3), APIs
- **AI Smart Desktop Controller (Computer Vision + ML)** Developed a gesture-based desktop automation system [GitHub]
  Implemented real-time tracking using MediaPipe and OpenCV
  Trained Random Forest model achieving 99.58% accuracy
  Tech: Python, OpenCV, MediaPipe, Scikit-learn, NumPy, PyAutoGUI
- **Smart Expense Analyzer (ML)** Built an ML-based expense categorization system with visualization dashboard [GitHub]
  Tech: Python, Flask, scikit-learn, pandas, Chart.js

Certifications

- **upGrad x Microsoft** — Online
  Generative AI Foundations Certificate — *May 2026*
  - Applied LLM fundamentals including prompt engineering (few-shot, chain-of-thought, structured prompting).
  - Built workflows using ChatGPT, Copilot, and custom GPTs for automation and content generation.
  - Worked on AI-driven tasks: summarization, content generation, and productivity pipelines.
  - Hands-on exposure to AI-assisted data analysis and reporting using Copilot.
  - Introduction to agentic AI systems and custom AI agents.
- **Progate** — Online
  Certifications — *November 2025*
  - Java Programming
  - SQL Programming
  - Python Programming
  - HTML & CSS Programming

Co-curricular Experience

- **Head Editor – Gaming Club**
  College Level Role
- **Anchoring & Event Management**
  School & College Events
