Education

- **Noida Institute of Engineering and Technology** *Nov 2022 - Jun 2026*
  Bachelor of Technology (Computer Science and Engineering) CGPA: 8.44
- **Atomic Energy Central School No. 4** *Jul 2022*
  Senior Secondary, Central Board of Secondary Education Percentage: 89.4
- **St. Paul's School** *Jul 2020*
  Secondary, Central Board of Secondary Education Percentage: 90.4

Experience

- **Internshala** *Aug 2023*
  Intern - Programming with Python Online
  - Built 5+ real-world Python projects focusing on data analysis and web automation, improving task efficiency by up to 60%.
  - Practiced clean code and reduced debugging time by 40% through techniques learned from peer-reviewed feedback sessions.
- **Prodigy Infotech** *Aug 2024*
  Intern - Web Development Online
  - Developed and deployed 3+ responsive websites using HTML, CSS, and JavaScript, with 100% mobile responsiveness and load time under 3 seconds.
  - Completed 3+ projects adhering to industry-standard design and responsiveness metrics.

Personal Projects

- **Tic-Tac-Toe Game** *Aug 2023*
  - Built a web-based game with JavaScript and Minimax AI for unbeatable gameplay played over 500+ sessions with 90%-win accuracy for the AI.
  - Implemented responsive GUI and real-time result detection with interactive UX.
- **Desktop Voice Assistant** *Nov 2023*
  - Created a Python-based assistant using NLP and speech APIs to automate desktop tasks (e.g., open apps , browse), reducing manual effort by 70%.
  - Achieved 90%+ voice command accuracy across 15+ functions using spaCy, PyAutoGUI, and Tkinter.
- **Projection Emotion Detection** *Nov 2024*
  - Trained a deep learning model (CNN + OpenCV) to recognize emotions from facial expressions with 88% accuracy.
  - Enabled real-time detection for use in online classrooms and meetings.
- **Gesture-Based Virtual Mouse System** *Apr 2025*
  - Designed a virtual mouse system that responds to hand gestures and voice commands using OpenCV and PyAudio, reducing reliance on traditional devices by 90% for users with mobility issues.
  - Tested successfully across 4+ hardware platforms, maintaining 95% gesture recognition accuracy.

Technical Skills and Interests

Languages: Python, Java, HTML, CSS, JavaScript, MySQL
Tools & Platforms: Power BI, Tableau, Tkinter, TensorFlow, OpenCV
Soft Skills: Effective Engagement Skills, Critical Thinking & Decision-Making, Agile Teamwork, Resilience

Certifications

- *Human-Centered Design for Inclusive Innovation--University of Toronto, Coursera (May 2023)*
- *Python for Data Science, AI & Development – IBM, Coursera (May 2023)*
- *Introducing Robotic Process Automation (RPA) – Automation Anywhere (Sep 2023)*
- *Java Programming Fundamentals – Infosys Springboard (Apr 2024)*
- *Kotlin Programming – Infosys Springboard (Feb 2025)*
- *Explore Machine Learning using R – Infosys Springboard (March 2025)*

Achievement

- **Internshala Student Ambassador** *Jul 2024 - Sept 2024*
  Assisted in promoting internship opportunities and career resources offered by Internshala .
