EDUCATION

Noida Institute of Engineering and Technology, Greater Noida **2022-2026**

Bachelor of Technology (B.Tech) in Computer Science & Engineering **8.43 CGPA**

INTERNSHIP / EXPERIENCE

Data engineering Intern

Celebal Technologies I Remote **May 2025 – July 2025**

- Executed scaled an **ETL** pipeline to process 10M+ NYC Taxi records using **Apache Spark** and **AWS S3**, achieving high-throughput data ingestion.
- Integrated **SQL Server** with a **Python**-based pipeline (**pyodbc)** to automate ingestion and preprocessing of 1M+ records, enhancing data accessibility.
- Collaborated with cross-functional team members to build reusable, scalable ETL components used in dashboards and downstream processing

PROJECTS

NYC Taxi Data Analysis

- Conceived and orchestrated a distributed ETL workflow to ingest and transform **10M+** NYC Taxi records using **Apache Spark** and stored on **AWS S3**.
- Surpassed 100K+ records/min throughput and reduced query latency by 3x; visualized trends using Tableau dashboards.
- Implemented robust job monitoring and error-handling, achieving **99.9%** data reliability & enabling near real-time analytics**.**

Banking System Web App

- Developed a secure transaction system using **Java, JDBC, and MySQL with MVC**, mimicking real-world financial transaction flows, aligned with industry-grade fintech security practices.
- Managed 1**0,000+** user transactions with **SQL** transactions and robust exception handling.
- Boosted system reliability and code maintainability by 40%, ensuring data accuracy and fault tolerance.

Department Management System (CRUD + API)

- Deployed a full-stack department data management system using **Spring Boot, React.js, and MySQL.**
- Updated data retrieval by **40%** and reduced frontend load time by 30% through **React** optimization.
- Maximized **API** efficiency and database performance by **25%**, enhancing user experience and speed.

SKILLS

- **Programming Languages:** Java, Python, HTML,CSS, **JavaScrip**t, SQL, MongoDB(NoSQL)
- **Frameworks & Tools:** Spring Boot, React.js, Node.js, Express.js,Angular.js RESTful APIs
- **Cloud & DevOps: AWS , GCP**, Docker, Git, GitHub, Apache Spark
- **Data Engineering** : ETL Pipelines, Distributed Processing, Data Warehousing, Query Optimization, Data Visualization.
- **CS Fundamentals:** Data Structures & Algorithms, Object Oriented Programming, DBMS, OS, Networking, SDLC.
- **Soft Skills**: Agile Collaboration, Team Management, Technical Leadership, Fast Learning.
