# SOHAIL ALAM

**Data Analyst | SQL | Python | Data Visualization | Statistical Analysis**

Ghaziabad, India | alamsohail734@gmail.com | +91 8810357731 | linkedin.com/in/alam-sohaill

## PROFESSIONAL SUMMARY

Analytics professional with hands-on experience in data visualization, dashboard creation, and data-driven decision making using Power BI and MS Excel. Skilled in analyzing large datasets to extract meaningful insights and present them through interactive dashboards. Strong understanding of data analysis concepts, with additional technical knowledge of SQL and Python.

## WORK EXPERIENCE

### Web Developer Intern

**Codevocado, Delhi, India** **September 2025 - December 2025**

- Data & Analytics Built interactive Power BI & Excel dashboards tracking **12+ KPIs** across 3 business functions, cutting report turnaround time by **40%** and enabling real-time decision making for stakeholders.
- Frontend Development Developed responsive frontend features for an internal LMS platform using HTML, CSS, and JavaScript, improving cross device accessibility for **200+ users** and contributing to a **25% increase** in platform engagement.
- Data Engineering Consolidated and cleaned data from 6 disparate sources including CRM exports, spreadsheets, and internal databases reducing data inconsistencies by **35%** and improving reporting accuracy for cross-functional teams.

### Data Management Volunteer

**Helper Hands Trust, Ghaziabad, UP** **January 2023 - Present**

- Maintained and updated a centralized database of 500+ beneficiaries and donors over 2+ years, ensuring 95%+ data accuracy to support the NGO's outreach and funding operations.
- Processed and structured raw records across 10+ Excel sheets using advanced functions (VLOOKUP, XLOOKUP, filters, and conditional formatting), reducing manual lookup time by ~30%.
- Audited datasets quarterly to identify and resolve 300+ duplicate and missing entries, improving data reliability by 40% and enabling accurate donor and impact reports for NGO leadership.

## EDUCATION

### Master of Computer Application

**IMS Engineering College, Ghaziabad, UP** **September 2024 - Present**

### UI/UX

**Jamia Milia Islamia, New Delhi, India** **(2024)**

### Bachelor’s in Computer Application

**Sunder Deep College of Management and Technology, Dasna, UP** **Graduated : 2023**

# SKILLS

- Data Analysis, Excel, Power BI, SQL, Data Visualization, Dashboard Development
- HTML, CSS, JavaScript, React.js, UX/UI Design, Responsive Design

# PROJECTS

### Resume Reactor - Resume Builder with Live Data Preview

- Engineered a full-stack resume builder with real-time form validation and structured input handling, processing user data across 8+ resume sections with zero data loss on dynamic updates.
- Implemented **live DOM rendering** to instantly reflect user edits in a formatted resume preview, reducing the edit-to-preview cycle from page reloads to **sub-100ms updates**, delivering a near-native app experience in the browser.

### Skill Match - Job Portal with Data-Based Matching

- Created a job portal that matches candidate skills with job requirements by processing and comparing structured user and job data
- Implemented filtering and data handling to recommend relevant job opportunities based on user input and skill analysis

### HR Analytics

- Built an end-to-end HR analytics dashboard analyzing **1,200+ employee records** across attrition, workforce demographics, and job satisfaction surfacing patterns across **6+ parameters** including department, tenure, and education level.
- Translated raw HR data into **actionable retention insights** identifying high-attrition segments by gender, experience, and role enabling data-backed decisions that could reduce voluntary turnover by an estimated **15–20%**.
