PROJECTS

Employee Management System (EMS) — MERN Stack

- Developed a full-stack Employee Management System using MongoDB, Express.js, React.js, and Node.js with role-based authentication for Admin and Employees.
- Implemented attendance management, leave management, employee record handling, and automated payslip generation features.
- Built secure RESTful APIs using Node.js and Express.js and integrated MongoDB for efficient database management.

Online Food Delivery Website

- Developed a fully responsive online food delivery web application using React.js and Tailwind CSS with a mobile-first design approach.
- Integrated live REST APIs to fetch real-time restaurant and menu data.
- Implemented client-side routing with React Router, including dynamic URLs and restaurant detail pages.
- Built Add-to-Cart, search functionality, and state management for seamless user experience.
- Focused on reusable components, modular architecture, and UI consistency.
