DIVYA CHAUHAN

Software Developer

SKILLS

C++, OOPS, PHP , Laravel Framework ,MVC Architecture, HTML5,
CSS3, Angular, SQL , PLSQL, API, RESTful API
Tools & Platforms Git, GitHub,Xampp, Composer, Tableau, PowerBI, VS Code , Informatica

PROJECTS

Weather Forecasting | React , HTML , CSS ,API [Source Code] Jan 2025 - May 2025

- Developed a dynamic and responsive weather forecasting web application using React.js to provide real-time weather updates.
- Integrated third-party REST APIs (e.g., OpenWeather API) to fetch live data including temperature, humidity, wind speed, and weather conditions.
- Implemented city-based search functionality with instant results and efficient API handling.
- Designed reusable React components and managed application state using React hooks (useState, useEffect).
- Built interactive UI to display current weather, hourly forecast, and upcoming days' predictions in a structured format.
- Handled API errors and edge cases (invalid city, network issues) to ensure a smooth and reliable user experience.
- Applied responsive design using modern CSS techniques to ensure compatibility across mobile, tablet, and desktop devices.
- Optimized performance by reducing unnecessary API calls and improving component rendering.

Job Portal – Web Application | PHP (Laravel), HTML, CSS, MySQL June 2025 - oct 2025

- Developed a full-stack Job Portal web application using the Laravel framework to connect job seekers with recruiters efficiently.
- Implemented complete CRUD functionality for job postings, applications, and user profiles using Laravel MVC architecture.
- Designed and managed a relational database (MySQL) to handle users, job listings, applications, and employer data with proper schema design and validations.
- Built dynamic and responsive user interfaces using HTML and CSS to ensure seamless user experience across devices.
- Utilized Laravel routing, controllers, middleware, and Blade templating for modular, maintainable, and scalable code structure.
- Implemented authentication and authorization features for job seekers and recruiters, including login, registration, and rolebased access control.
- error handling to maintain data integrity and improve user interaction.
- Optimized database queries and backend logic to enhance application performance and reduce response time.

To-Do List System – Web Based System | PHP (Laravel), HTML, CSS, MySQL,,Angular nov 2025 - mar 2026

- Developed a full-stack To-Do List web application using Laravel framework to manage daily tasks efficiently.
- Built RESTful APIs in Laravel for seamless frontend-backend communication.
- Integrated MySQL for data storage and optimized backend validation, middleware, and secure CRUD operations.
- Designed normalized database schema with relational mapping for trains, users, bookings, passengers, and payments.
- Implemented backend validation, middleware, and secure CRUD functionality to ensure data integrity and application security.
- Designed a responsive and user-friendly interface with task creation, update, deletion, search, and status tracking features.
- Implemented secure user authentication and session management for protected access.

ACHIEVEMENTS

- Gained hands-on experience in full application development, API integration, and data warehousing using modern tools and technologies.
- Secured a CGPA of 9 in B.Tech(CS), demonstrating strong academic performance
- Completed advanced training in SQL, Informatica, and BI tools at HCLTech

EDUCATION

IMS Engineering College, Ghaziabad — Sep 2022 - ongoing
B.tech Cs - 9 CGPA — Ghaziabad, Uttar Pradesh

Balika Vidhya Mandir, Dhampur — April 2021 - April 2022
Intermediate - 80% — Dhampur, Uttar Pradesh

Balika Vidhya Mandir, Dhampur — April 2019 - April 2020
High School – 75% — Dhampur, Uttar Pradesh
