Professional Summary

Full Stack Developer specializing in NestJS, TypeScript, and React with experience building AI-integrated applications, scalable REST APIs, and production-ready systems. Currently at Broadway Infotech.

Skills

- **Backend:** Node.js, NestJS, Express, REST APIs, JWT, RBAC
- **Frontend:** React, Next.js, HTML, CSS, JavaScript
- **Databases:** MongoDB, MySQL, TypeORM, Redis
- **Languages:** TypeScript, Java, Python, C
- **AI & Tools:** Groq API, Prompt Engineering, Docker

Work Experience

Software Trainee — Backend Development Dec 2025 – Present
Broadway Infotech, Noida
Tech: NestJS, Node.js, TypeScript, MySQL, MongoDB, REST APIs

- Diagnosed and resolved async workflow bugs and DB query inconsistencies, improving API reliability and system stability.
- Designed modular service-layer architecture and implemented scalable API endpoints with validation and exception handling.
- Implemented seat availability logic and filtering workflows, resolving data inconsistencies between frontend and backend.
- Built and optimized REST APIs using NestJS, improving response time 15% and system reliability.

Projects

TicketOps — Live Ticketing System Live | GitHub
NestJS, Next.js 15, TypeScript, MySQL, Redis, WebSockets, Razorpay, Docker

- Integrated Razorpay payment gateway with HMAC signature verification and idempotency to prevent duplicate bookings.
- Implemented real-time WebSocket notifications using Socket.IO with JWT-authenticated room-based messaging.
- Built Redis caching layer (Upstash) with cache invalidation, reducing repeated DB queries on event listings.
- Designed RBAC system with JWT + refresh token rotation, protected routes, and Axios interceptors.

AI Code Editor Live | GitHub
React, TypeScript, NestJS, Groq API, Monaco Editor, React Flow

- Built 3 AI features: Intent Mode (code optimization with before/after breakdown), Explain Codebase (interactive dependency diagram), and Decision Memory (tracks why code was written).
- Designed service-based NestJS architecture across PromptService, GroqService, and ValidationService with clean separation of concerns.

PassOp Secure Password Manager (Live | GitHub) *React, Node.js, Express, MongoDB*

- Full stack password manager with encrypted storage, JWT auth, REST APIs deployed on Vercel + Render.

Education

Meerut Institute of Engineering & Technology (MIET) (2022 – 2026)
B.Tech — Computer Science & Engineering (Data Science)
CGPA: **7.3**

Meerut Public School, Meerut (2020 – 2022)
Class XII: **76%**
Class X: **88%**

Certifications

AWS Certified Cloud Practitioner; MongoDB Basics; AWS Academy Cloud Foundations. View All on Credly
