PROFILE

Full Stack Developer with hands-on experience building MERN-based web applications and RESTful APIs. Completed industry internship at DUCAT, delivering production-ready platforms including Shopshere and Nexora. Strong foundation in problem-solving, backend architecture, and AI/ML integration.

EDUCATION

B.Tech(CSE), IMS Engineering College, Ghaziabad(2022–26)

Shri Shankar Mumukshu Vidyapeeth ,Shahjahanpur—Completed 10th & 12th (Science,2021)

SKILLS

Technical: Java, JavaScript, Python, React, Node.js, SQL, MongoDB, Data Structures & Algorithms

Tools: Git, GitHub, VSCode

EXPERIENCE

ShapeMySkills by DUCAT – MERN Stack Developer Intern

Jul 2025 – Aug 2025

- Built and maintained MERN stack applications with responsive UIs, improving load speed by ~30%.
- Designed and integrated RESTful APIs, boosting system performance and scalability for 500+ users.
- Collaborated in Agile sprints (daily stand-ups, code reviews), reducing delivery time by 15%.
- Resolved 10+ production issues, ensuring smooth deployment and bug-free releases.

PROJECTS

ShopSphere — Full-Stack E-Commerce Web Application (MERN)

- Developed a full-stack e-commerce platform using **MongoDB, Express.js, React.js, and Node.js** with modular REST APIs and scalable architecture.
- Implemented **secure user authentication and authorization** using JWT, including role-based access for users and admin.
- Built core features such as **product listing, search & filters, cart management, order placement, and order history** with real-time state handling in React.
- Designed an **admin dashboard** to manage products, users, and orders, with full CRUD operations and database-level validation.

Nexora - Generative AI App (React JS, Gemini API, 2025)

- Built a **Generative AI Web App** similar to Google Gemini / ChatGPT using **React JS** and **Gemini API**, following a step-by-step development workflow.
- Implemented real-time conversational UI, secure API integration, and a responsive design.
- Demonstrated strong frontend engineering skills and hands-on experience working with **Generative AI models**, API calls, and modern React architecture.
