## PROFESSIONAL SUMMARY

Aspiring Software Developer with a strong foundation in Java (DSA) and Python. Proficient in building responsive web applications using React.js, JavaScript, HTML, and CSS. Gained hands-on industry experience through an internship at TriUnity Labs, contributing to real-world projects. Passionate about problem-solving, AI fundamentals, and writing clean, efficient code.

## EDUCATION

**Bachelor of Technology in Information Technology**
Greater Noida Institute of Technology (AKTU), Greater Noida, UP
*Expected Graduation: 2026* **Aug 2022 – Present**

**Higher Secondary School (Class XII)**
Loni Inter College, Loni, Uttar Pradesh **2020**

**Secondary School (Class X)**
Loni Inter College, Loni, Uttar Pradesh **2018**

## PROJECTS & ACHIEVEMENTS

**Automated Fraud Detection System** **Nov 2023**
Engineered an AI-driven security platform to detect document tampering. Integrated biometric modules (facial/fingerprint) for identity verification and developed scanning algorithms to identify digital manipulations. Optimized MySQL schemas for secure, high-speed record retrieval.
*Tech: Python, HTML5, CSS3, MySQL, Biometric APIs.*

**Real-Time Collaboration Tool** **Nov 2024**
Developed a real-time web application for simultaneous multi-user content editing using React.js. Implemented instant state synchronization and a responsive UI. Leveraged Git/GitHub for version control, ensuring modular design and efficient development.
*Tech: React.js, JavaScript, HTML5, CSS3, Git.*

**AI Health Risk Detection & Prediction** **Jan 2026**
Engineered a predictive system using **Random Forest** to identify health risks like diabetes from clinical data. Implemented data preprocessing and feature scaling to improve model accuracy. The system analyzes patient metrics to provide real-time probability scores for medical intervention.
*Tech: Python, Scikit-learn, Pandas, Matplotlib.*

## TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, Python, Salesforce, SQL
- **Web Technologies:** HTML5, CSS3, React.js, J2EE, LWC, APEX
- **Database Management:** MySQL
- **Core Competencies:** Data Structures, Algorithms, Object-Oriented Programming, Problem Solving

## CORE COMPETENCIES

- **Technical Problem Solving:** Strong analytical skills with focus on algorithmic thinking and optimization
- **Quick Learner:** Rapidly adapts to new technologies and frameworks with self-directed learning approach
- **Team Collaboration:** Effective communicator with experience in collaborative development environments
- **Self-Motivated:** Consistently pursues daily coding practice and continuous skill enhancement

## INTERESTS

Competitive Programming, Open Source Contribution, Technology Innovation, Web Development, Software Engineering Best Practices
