Professional Summary

Final-year MCA student with strong expertise in Machine Learning and Data Analysis, and a keen interest in Generative AI (actively learning). Experienced in data cleaning, EDA, feature engineering, and building predictive models. Developed AI-powered applications using Flask and explored Retrieval-Augmented Generation (RAG) for intelligent systems. Proficient in deriving actionable insights and building scalable data-driven solutions. Seeking an entry-level role in Data Science, Machine Learning, or AI.

Technical Skills

- **Programming:** Python, HTML, CSS
- **Machine Learning:** Scikit-learn, Model Evaluation
- **Gen AI Concepts:** Transformer, RAG, LLMs
- **Database Management:** SQL
- **Libraries:** NumPy, Pandas, Matplotlib
- **Tools:** Jupyter Notebook, VS Code, Power BI
- **Version Control:** Git, GitHub
- **Soft Skills:** Problem Solving, Decision Making, Communication skills

Projects

Customer Churn Prediction & Analysis

- Developed an end-to-end machine learning pipeline to predict customer churn using Python, leveraging libraries such as Pandas, NumPy, and Scikit-learn.
- Conducted comprehensive exploratory data analysis (EDA) and performed data cleaning and feature engineering to enhance model performance.
- Built and evaluated multiple classification models, identifying key drivers of churn including contract type, tenure, and payment methods.
- Deployed the trained model using Flask to enable real-time churn prediction through a user-friendly interface.

GroqAI Chatbot (GenAI-based Conversational Assistant)

- Designed and developed a full-stack AI-powered chatbot using Python and Flask, enabling real-time conversational interactions.
- Implemented Retrieval-Augmented Generation (RAG) using FAISS to deliver context-aware and personalized responses.
- Built a dynamic and responsive frontend using HTML, CSS, and JavaScript with chat history tracking for improved user experience.
- Integrated SQLite3 for efficient storage and retrieval of chat data and custom knowledge base management.

Education

Master of Computer Applications (MCA) 2024 – 2026
IMS Engineering College, Ghaziabad

Bachelor of Computer Applications (BCA) 2021 – 2024
SIMT College, Rudrapur

Training

Data Analytics Training Program Jan 2026 – Apr 2026
Capgemini, Center of Excellence in Skilling

- Gained hands-on experience in SQL, data modeling, and query optimization.
- Performed data preprocessing and EDA using Python (Pandas, NumPy).
- Developed dashboards and KPI reports using Power BI.
- Worked on real-world datasets to generate actionable insights.
