PROFILE

Detail-oriented BTech student specializing in Information Technology, equipped with hands-on experience in full-stack development using the MERN stack. Proficient in building robust RESTful APIs, managing data effectively with MongoDB and Mongoose, and crafting responsive user interfaces with React.js and Tailwind CSS. Well-versed in Git and version control practices, with a solid foundation in core web technologies such as HTML, CSS, and JavaScript. Committed to leveraging technical skills to deliver innovative solutions and enhance user experiences.

PROFESSIONAL EXPERIENCE

Esprit Systems Private Limited, *Full Stack Developer Intern* 07/2025 – 09/2025
Punjab (Remote)

- Collaborated with team members to develop responsive web applications using JavaScript frameworks.
- Utilized version control systems to manage code and streamline collaboration processes.
- Conducted unit testing to identify bugs and improve overall application functionality.
- Developed backend APIs to support seamless data exchange between client and server.

PROJECTS

Simple Blog Application , *Full Stack Web Application* 02/2025 – 03/2025

- Built a full-stack blog system using MERN stack with JWT-based user authentication.
- Implemented CRUD operations for posts and comments with secure API routes and input handling.
- Designed a responsive React + TailwindCSS frontend with a rich-text editor for post creation.

Collaborative-Task-Manager , *Full Stack Web Application* 12/2025 – 01/2026

- Developed a **full-stack collaborative task management system** to streamline team workflow, task assignment, and progress tracking.
- Implemented **real-time task tracking and status updates** (To-Do, In Progress, Completed) for efficient project monitoring.
- Designed and integrated **RESTful APIs** for task creation, assignment, and user management.
- Built **role-based authentication and authorization (JWT)** to ensure secure access control.

Disaster-Management-System , *Full Stack Web Application* 02/2026 – 03/2026

- Developed a **full-stack Disaster Management System** to streamline emergency response and disaster coordination.
- Built **RESTful APIs** using Node.js and Express.js for handling incident reports, user data, and resource management.
- Designed a **responsive and user-friendly interface** using React.js for real-time interaction and accessibility.
- Implemented **secure authentication and authorization** using JWT for protected user access.
- Enabled **incident reporting and emergency alert features** to support affected users during disasters.

SKILLS

Programming Language: Java (DSA) • Python • Java Script • HTML • CSS |

Frame Work: React.js • Next.js • Express.js • Node.js | **Database Management System:** MongoDB • PostgreSql | **Tools:** Git • Docker • Visual Studio • Cursor • Postman

EDUCATION

B.Tech in Information Technology, *IMS Engineering College, AKTU* 2022 – Present
Ghaziabad, India

- Relevent Coursework: Data Structures and Algorithms, Database Management Systems, Object-Oriented Programming (OOP)

XII - Central Board of Secoundary Education, *Vanasthali Public School* 2020 – 2021
Noida, India

- Relevent Coursework: Physics (Mechanics, Optics etc.), Chemistry (Physical, Organic etc.), Mathematics (Calculus, Algebra, Probability & Statistics etc.)

CERTIFICATES

MERN Stack Development: MongoDB, Express.js, React.js, Node.js, REST APIs, JWT, Mongoose, CRUD |

Git and GitHub - Udemy: Version Control, Branching, Merging, Pull Requests, CLI, Rebase |

HTML, CSS, JavaScript - Udemy: Semantic HTML, Flexbox, Grid, DOM Manipulation, ES6, Event Handling
