Professional Summary

Results-driven MCA candidate, currently undergoing training at Capgemini Centre of Excellence with a strong foundation in Data Analytics and Business Intelligence, with knowledge of ETL processes. Hands-on experience in Python, SQL, Power BI, and Excel including Data Visualization, Dashboard Reporting, and SQL Query Optimization. Skilled in performing comprehensive data analysis, building interactive dashboards, and deriving actionable insights to support data-driven decision-making and strong data interpretation skills. Applying technical expertise and analytical skills in a Data Analyst Training role, seeking a Data Analyst position.

Technical Skills

- **Programming:** Python, SQL, HTML, CSS
- **Web Development:** Django
- **Libraries:** NumPy, Pandas, Matplotlib, Seaborn
- **Data Analysis:** Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA)
- **Tools:** Power BI , Microsoft Excel , Data Visualization, Dashboard Reporting
- **Database:** MySQL (Joins, Aggregations, Filtering), SQLite
- **Soft Skills:** Communication, Team Collaboration, Adaptability, Quick Learning

Training

Data Analytics Training — Capgemini Center of Excellence Jan 2026 – Apr 2026

NSEZ, Noida

- Completed intensive 3-month industry-oriented training program in collaboration with IACT Education Pvt. Ltd. and IDEMIA India Foundation.
- Performed end-to-end data analysis using Excel, SQL, Python, and Power BI on real-world datasets along with data cleaning, transformation, and visualization to extract meaningful insights including dashboard reporting and data visualization techniques.
- Executed complex SQL queries involving joins, aggregations, and filtering to extract meaningful business insights and optimized query performance, and utilized Python libraries (Pandas, NumPy) to generate 10+ data visualizations using Matplotlib and Seaborn to identify trends, patterns, and anomalies, and supported data-driven business decisions.
- Enhanced and interactive dashboards to effectively present actionable insights and support data-driven decision-making.

Projects

Banking Data Analysis Project — GitHub Feb–Mar 2026

Python, Pandas, Matplotlib, Seaborn, Power BI

- Conducted exploratory data analysis on a real-world banking dataset of 10,000+ records using Python.
- Performed data cleaning and preprocessing, improving data accuracy by 20%.
- Created 10+ data visualizations using Matplotlib and Seaborn to identify trends and patterns.
- Designed an interactive Power BI dashboard with 5+ KPIs for business intelligence and dashboard reporting.

Social Media Sentiment Analysis Jan 2025

Python, Pandas, Matplotlib, Seaborn, Power BI, Tkinter (GUI)

- Built a sentiment analysis project using Python to classify text (Positive/Negative/Neutral)
- Developed a simple GUI for real-time sentiment prediction

Great-Kart E-commerce Website Oct–Dec 2025

HTML, CSS, Python, Django, SQLite

- Built an e-commerce web application using Django.
- Implemented backend processing and database integration for managing product data.

Education

Master of Computer Applications (MCA) 2024–2026

Dr. A. P. J. Abdul Kalam Technical University *IMS Engineering College, Ghaziabad*

Bachelor of Computer Applications (BCA) 2021–2024

IFTM University, Moradabad *CGPA: 8.9*

Certifications

Python Full-Stack Development Certification Jun 2023

DUCAT India, Noida

Comprehensive training in Python programming, web development frameworks, database integration, and application development with backend integration
