OBJECTIVE

Results-driven software engineer currently pursuing MCA with a keen interest in website development. Passionate about learning new technologies and creating efficient software solutions. Seeking opportunities to apply knowledge, gain experience, and grow in the IT industry.

EDUCATION

Master of Computer Science **Expected 2027**
Noida Institute of Engineering and Technology (NIET), Greater Noida *CGPA: 9.28*

Bachelor of Computer Science **2021 - 2024**
Annex Institute of Technology, Hajipur *Percentage: 84%*

TECHNICAL SKILLS

Technical Skills: C++, Java, JDBC, Servlet, SQL
Core Skills: Operating System, DBMS, Data Structures & Algorithms (DSA), OOP

PROFESSIONAL EXPERIENCE

Java Developer Intern **May 2025 - June 2025**
CodeForSuccess

- Contributed to project development tasks and collaborated with team members to complete assigned modules efficiently.
- Demonstrated strong problem-solving and learning abilities while working on real-world development activities.
- Maintained consistency in task completion and delivered assigned work within deadlines.
- Gained practical exposure to software development workflow, teamwork, and professional communication.

PROJECTS

Garage Billing System **Core Java, OOP**

- Developed a console-based garage billing system to manage customer records, vehicle services, and bill generation.
- Implemented object-oriented programming concepts such as classes, objects, inheritance, and encapsulation.
- Designed functionalities for service management, bill calculation, and customer detail handling.

BookMyTrain **Core Java, Collections Framework**

- Built a train ticket booking system using Core Java concepts and menu-driven programming.
- Implemented features such as train search, seat booking, ticket cancellation, and passenger record management.
- Utilized Collections Framework and OOP principles for efficient data handling and modular design.

ACHIEVEMENTS

- Maintained a 50-day coding streak on LeetCode by consistently solving Data Structures and Algorithms problems.
- Regularly practice problem-solving and strengthen concepts in C++ and DSA.
