EDUCATION

Noida Institute of Engineering and Technology **2023 – 2026**
B.Tech - Computer Science and Business Systems - ***CGPA - 6.40*** *greater noida*
Diploma - computer science - **CGPA - 6.90** (2019-2022)

PROJECTS

Airline Booking System | Node.js, Express.js, MySQL **Jan 2025**

- Developed a scalable airline booking system using Node.js, Express.js, and MySQL, applying microservices architecture principles. Aug 2024 Designed and implemented core services: Authentication, Flight Search, Booking, and Notification, reducing service coupling by 40Utilized RabbitMQ for asynchronous communication between microservices, enhancing system reliability and improving response time by 25Secured APIs with JWT-based authentication, ensuring secure sessions and reducing unauthorized access by 30Applied service separation, database modeling, and modular code practices to maintain a clean architecture and reduce redundancy by 20Focused on backend architecture design, error handling, and service abstraction, leading to a 15downtime during peak usage.

Mynd Mate - Ai Coach | progress **Jan 2025**

- Built a full-stack AI personal coach web app using React, Tailwind CSS, and PostgreSQL, providing personalized goal tracking and progress insights to over 30 beta users.
  . ntegrated the Gemini AI API to offer real-time, context-aware coaching suggestions, reducing suggestion latency to under 1 second and achieving a 70percent doption rate.
  .Implemented a structured goal-setting and feedback system, allowing users to log over 300 activities and receive AI-generated action plans within 2 minutes of logging.
  .Designed and deployed a responsive dashboard with interactive charts and progress summaries, improving data load times by 40percent and boosting weekly active user engagement by 15

TECHNICAL SKILLS

Languages: java, C++, JavaScript, SQL
Technologies/Frameworks: HTML, CSS, React, MongoDB, Javascript, Bootstrap
Developer Tools: Eclipse ,VS Code, Canva

CERTIFICATIONS

- Java Programming Fundamentals – Inncap Apr 2025
- Oracle – OCI AI Foundations Associate Jan 2025
- JavaScript and React – Infosys Springboard Mar 2024
- Deep Learning for Developers – Infosys Springboard Apr 2025
- Network Fundamentals – Infosys Springboard Apr 2025
- Become an Oracle Data Platform Foundations Associate Apr 2025
