28, street no. 1, Shanti Nagar, Ghaziabad, UP, 201009

SUMMARY

I am a passionate and dedicated computer science student specializing in software development and game design.
With hands-on experience in technologies such as Java, Spring Boot, and Unity, I have successfully developed applications and games that emphasize performance. I thrive in collaborative environments and am eager to contribute to innovative projects in the tech industry.

EDUCATION

B. Tech: Computer Science and Design 2022 – 2026
IMS Engineering College Ghaziabad
SGPA: 6.9

Senior School (12th) 2021 – 2022
JKG International School
70%

Secondary School (10th) 2019 – 2020
JKG International School
85%

PROJECTS

Student Management System
- Technical Stack: Java Spring Boot, Postman, PostgreSQL
- Developed a RESTful Student Management System using Spring Boot implementing complete CRUD operations
- Designed layered architecture using Controller, Service, and Repository patterns
- Integrated PostgreSQL for persistent data storage and relational data handling
- Implemented Spring Data JPA for database interactions and ORM mapping
- Tested and validated APIs using Postman for request-response handling
- Used HTTP methods (GET, POST, PUT, DELETE) following REST principles

Typing Speed Game
- Developed an interactive typing speed game using Unity and C# with real-time input handling and UI updates.
- Implemented event-driven architecture using TextMeshPro input listeners to track user typing dynamically.
- Calculated typing performance (WPM) using time-based metrics and optimized real-time timer updates.

SKILLS

Technical Skills
- Java, Spring Boot, REST APIs
- Python
- MySQL
- Data Structure

Professional Skills
- Willing to learn
- Logical thinking
- Quick learner

EXTRACURRICULAR & CERTIFICATIONS

Hewlett Packard Enterprise Software Engineering Job Simulation on Forage 12/2025
- Wrote a proposal for a RESTful web service to manage list of employees.
- Built a REST application in Java Spring Boot that can accept and respond HTTP requests as well as support uploading JSON data
