Summary

I am a Full Stack Developer and detail-oriented B.Tech Information Technology student from the Batch of 2026 with hands-on experience in React.js, Express.js, and MongoDB. I am passionate about building responsive and user-focused web applications and continuously learning new technologies. I have strong problem-solving and teamwork abilities, along with a growing interest in AI-powered web solutions.

Education

B.Tech in Information Technology **Nov 2022 – Jun 2026**
IMS Engineering College, Ghaziabad *CGPA: 7.8 / 10*

Intermediate (12th) — UP Board **2022**
S B Inter College B B Nagar, Bulandshahr *Percentage: 72%*

High School (10th) — CBSE Board **2020**
B Bodhraj Convent School Sikandrabad, Bulandsahr *Percentage: 65.25%*

Skills

Languages: Python, Java
Web Technologies: HTML, CSS, JavaScript, React.js, Express.js, MongoDB
Tools: Git, GitHub, VS Code,
Soft Skills: Problem Solving, Teamwork, Communication

Experience

Frontend Development Intern **July 2025 – August 2025**
July 2025 – August 2025
Self-Initiated Project – Remote
Developed and deployed a personal portfolio website to showcase projects and technical skills. Designed a responsive and user-friendly interface using modern frontend technologies, ensuring cross-device compatibility and optimized performance. Structured content effectively with reusable components and clean UI/UX principles. Implemented smooth navigation, section-based layout, and optimized loading speed. Gained hands-on experience in website deployment, debugging, and improving frontend performance and accessibility standards. Live Demo: https://himanshu-kumar-cybersecu-mgnd5l3.gamma.site/

Projects

A Real Time chatting Webapp — JavaScript, Node.js, Express.js, Socket.io **2025**
Developed a real-time chatting web application in 2025 with interactive messaging features and dynamic user interface. Implemented responsive frontend design to ensure smooth user experience across devices. Focused on efficient UI rendering, real-time updates, and clean component-based structure. Gained hands-on experience in frontend development, deployment, and handling live user interactions.
Live Demo: https://chattingweb.onrender.com/

JARVIS-AI – Intelligent Voice Assistant — Python, Speech Recognition, NLP, Automation **2025**
Developed an AI-powered virtual assistant capable of performing system-level tasks through voice commands. Implemented speech-to-text and text-to-speech functionalities to enable seamless human-computer interaction. Integrated features such as web browsing, application control, information retrieval, and task automation. Designed a modular architecture for efficient command processing and scalability. Gained hands-on experience in AI integration, API handling, and building intelligent automation systems.

Awards & Certifications

Frontend Development Certification **2025**
Received certification in Frontend Development with JavaScript and React.js from Devtown during Live project completion Remote.

Runner-up Innovation Award **2025**

Awarded Runner-up Innovation Award 2025 for developing JARVIS – AI, an AI-powered virtual assistant capable of performing system-level tasks through voice commands
