LinkedIn: linkedin.com/in/yotish-sharma-79084b297 | GitHub: github.com/yotish-sharma

Aspiring Data Analyst | SQL | Python (Pandas) | Power BI | Excel | Data Cleaning & Visualization

EDUCATION

Bachelor of Computer Application (BCA), GLA University, Mathura (Expected 2026)
Relevant Coursework: DBMS, Statistics, Data Structures, Data Analysis

Class 12 – New St. Stephens Sr. Sec. School, Agra (2022)
Class 10 – New St. Stephens Sr. Sec. School, Agra (2020)

VIRTUAL EXPERIENCE

Data Analytics Job Simulation – Tata Group (Forage)
- Conducted exploratory data analysis (EDA) on business datasets to identify trends and patterns
- Performed AI-based risk profiling and data interpretation to support business decision-making
- Generated actionable insights to improve business understanding and strategy

Data Analytics Job Simulation – Deloitte (Forage)
- Analyzed datasets using Excel to identify key trends and performance metrics
- Applied data analysis techniques to derive insights for business decision-making
- Supported data visualization and reporting to communicate findings effectively

PROJECTS

Subscription Revenue & Churn Intelligence System
- Analyzed customer subscription data to identify churn patterns and revenue trends
- Performed data cleaning and exploratory data analysis (EDA) using Excel and Python (Pandas)
- Identified key factors influencing customer churn and retention behavior
- Developed interactive dashboards in Power BI to track KPIs such as churn rate, customer lifetime value, and revenue performance
- Generated actionable insights to improve customer retention and business decision-making
- Used data visualization techniques to highlight trends and support strategic planning

Café Profit & Operations Intelligence
- Analyzed café sales and operational data to identify profit trends and performance metrics
- Performed data cleaning and analysis using Excel to uncover patterns in sales and expenses
- Created dashboards to track key metrics such as revenue, cost, and product performance
- Provided insights to improve operational efficiency and profitability

SKILLS

Excel (Pivot Tables, VLOOKUP, Dashboarding) | **SQL** (Joins, Aggregations) | **Python** (Pandas, NumPy, Matplotlib) | **Power BI** (Dashboard Development, Data Visualization)

Data Cleaning | Data Analysis | Data Visualization | KPI Analysis | Business Insights

CERTIFICATIONS
- Google Data Analytics Professional Certificate
- Microsoft Excel (Beginner to Advanced)
- Basics of Python (Infosys Springboard)

ACTIVITIES
- Coordinated 3+ coding events (100+ participants)
