BRIJESH KASAUDHAN

Software Development Engineer | Full-Stack Developer

+91-7518295593 • brijeshkasaudhan8715@gmail.com • github.com/Brijeshkasaudhan • linkedin.com/in/brijesh-kasaudhan • Greater Noida, India

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java, Python, HTML5, CSS3
Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, Bootstrap
Databases: MongoDB, SQL, Firebase Realtime Database
Tools & Concepts: Git, GitHub, Postman, REST APIs, DSA, OOP, Agile/Scrum, Linux
AI / ML: Supervised & Unsupervised Learning, Neural Networks, Data Preprocessing, Feature Engineering

INTERNSHIP EXPERIENCE

Software Development Intern | **Brain Mentors Pvt. Ltd.** | Ghaziabad, India *Jul 2025 – Sep 2025*

- Built a full-stack URL Shortener using MERN stack with JWT authentication, custom alias support, redirection engine, and click analytics dashboard.
- Designed RESTful APIs with Node.js/Express.js and React.js responsive front-end; integrated MongoDB for persistent URL and user data storage.
- Strengthened DSA skills (arrays, linked lists, trees, graphs, dynamic programming) through structured mentorship and daily problem-solving practice.

AI & Data Analytics Intern | **Edunet Foundation (AICTE)** | Remote *Apr 2025 – May 2025*

- Performed data preprocessing, feature engineering, and built supervised ML models (Decision Trees, SVM) improving accuracy through hyperparameter tuning.
- Delivered data visualization dashboards using Matplotlib and Seaborn; completed an end-to-end ML pipeline project aligned with AICTE standards.

PROJECTS

Smart Parking Management System | *React.js, Node.js, Express.js, MongoDB, IoT, REST API*

- Engineered a full-stack IoT-integrated web app with real-time parking availability, booking management, payment workflow, and secure user authentication.
- Designed scalable RESTful backend with MongoDB persistence; built responsive React.js UI with live slot updates for smart-city deployment.

Real-Time Task Manager | *React.js, Firebase, JavaScript*

- Developed a multi-device synchronized task management app using React.js + Firebase Realtime Database with full CRUD, React Hooks, and Context API state management.

Chrome Dino Game Clone | *JavaScript, Canvas API, OOP*

- Built a 60fps browser game using HTML5 Canvas API with a custom game loop, physics engine, and real-time collision detection using vanilla JavaScript.

EDUCATION

B.Tech – Computer Science Engineering *2022 – 2026*
IMS Engineering College, Ghaziabad | **CGPA: 8.21 / 10.0**
Class XII – CBSE, Air Force School, Gorakhpur | **90.16%** *2021*

CERTIFICATIONS & ACHIEVEMENTS

Achievement: **AI Odyssey Winner – IIT Kharagpur (2025)** | NPTEL: IoT, Data Science for Engineers, Soft Skills | Python – GUVI | AI India 2.0 | AI Foundations – Microsoft
