Divya Tyagi

Ghaziabad, Uttar Pradesh — divyatyagiindia0311@gmail.com — +91-9548503357 — github.com/Divya-tyagii
— linkedin.com/in/divya-tyagi-17422a259

Professional Summary

Final-year B.Tech CSE student with industry experience in frontend development and data analytics. Proficient in Python, TensorFlow, Scikit-learn, SQL, Power BI, React.js, Node.js, and Flask. Skilled in ML model development, feature engineering, EDA, statistical analysis, and REST API deployment. Seeking a Software Engineer or Data Analyst role to deliver data-driven, scalable software solutions.

Education

IMS Engineering College, AKTU University — **Aug 2022 – July 2026**
B.Tech in Computer Science and Engineering | SGPA: 8.0/10 — *Ghaziabad, Uttar Pradesh*

Oxford Public School, C.B.S.E — **2022**
Senior Secondary School (PCM) | 83% — *Nehtaur, Uttar Pradesh*

Oxford Public School, C.B.S.E — **2020**
Secondary School | 87.74% — *Nehtaur, Uttar Pradesh*

Technical Skills

Languages: Python, C++, JavaScript, SQL
ML & AI: TensorFlow, Keras, Scikit-learn, NLP, CNN, LSTM, Predictive Modeling, Feature Engineering, Model Evaluation, Cross-Validation, Hyperparameter Tuning
Data Analytics & BI: Pandas, NumPy, Matplotlib, Seaborn, Power BI, MS Excel, EDA, Statistical Analysis, Data Cleaning, Data Visualization, Business Intelligence, Dashboard Development
Web, Tools & Platforms: React.js, Node.js, Flask, Angular, REST APIs, HTML, CSS, Git, GitHub, Jupyter Notebook, Google Colab
Methodologies: Agile, Scrum, SDLC, OOP, Data Structures & Algorithms, Requirement Gathering

Internship Experience

ID Design Ltd — **May 2024 – June 2024**
Frontend Developer Intern – R&D Department — *Ghaziabad, Uttar Pradesh*

- Designed and developed responsive, cross-browser-compatible UI components using HTML, CSS, and JavaScript, improving user interface consistency across web platforms.
- Collaborated within an Agile/Scrum development team, participating in sprint planning, daily stand-ups, requirement gathering, and iterative feature delivery.

Skillrisers Infotech Pvt. Ltd — **Jan 2024 – Feb 2024**
Data Analytics Intern — *Remote*

- Executed end-to-end data analytics workflows including data collection, cleaning, EDA, and statistical analysis on real-world business datasets using Python (Pandas, NumPy, Matplotlib, Seaborn).
- Developed interactive Power BI dashboards and data visualizations to communicate key business insights, supporting data-driven decision-making processes.

Projects

Intrusion Detection System (IDS) with Deep Learning | *Python, TensorFlow, Flask, CNN, LSTM*

- Architected a hybrid CNN-LSTM deep learning model trained on the NSL-KDD benchmark dataset (125,000+ records) for multi-class cyber threat detection, achieving 20%+ reduction in false positive rate over traditional ML baselines.
- Deployed the trained model as a Flask REST API, enabling real-time network packet classification and automated intrusion alerting for security monitoring workflows.

Phishing URL Detection | *Python, Scikit-learn, Logistic Regression, Random Forest* — **Mar 2025**

- Engineered 30+ URL-based features (prefix/suffix patterns, symbol frequency, domain structure) and applied cross-validation with hyperparameter tuning; achieved 90%+ accuracy with Random Forest identified as optimal classifier via F1-score and precision-recall analysis.

Fake News Detection | *Python, Flask, NLP, Scikit-learn, TF-IDF* — **Jan – Feb 2025**

- Built an NLP pipeline using TF-IDF vectorization, tokenization, and Passive Aggressive Classifier for real-time misinformation detection; deployed as a Flask web application with an intuitive user interface.

Alert Wave – Emergency Alert System | *JavaScript, REST APIs, Geolocation API* — **Dec 2024 – Jan 2025**

- Developed a location-aware disaster alert web application integrating third-party REST APIs and Geolocation API; implemented event-driven push notifications for real-time emergency broadcasts (earthquakes, floods, storms).

Certifications

- Data Analytics Job Simulation – **Deloitte (Forage)** | Data interpretation, forensic analysis, business intelligence dashboard creation
- GenAI & Analytics Job Simulation – **Tata (Forage)** | Generative AI tools, data analytics, business insight reporting
- Software Engineering Job Simulation – **Accenture (Forage)** | Agile SDLC, software architecture, sprint planning, requirement analysis
- Introduction to Artificial Intelligence – **LinkedIn Learning** | Supervised & unsupervised learning, ML algorithms, AI applications
