Mehul Sharma

Data Analyst | Power BI | SQL | Excel

+91 7042087890 mehulsharma712@gmail.com github.com/mehulsharma712

PROFILE

Aspiring Data Analyst with hands-on experience in data analysis, reporting workflows, and dashboard-oriented systems. Skilled in SQL, Excel, Power BI, and data visualization concepts with practical exposure to lead tracking, time-series analysis, and business data workflows through real-world and hackathon projects. Strong problem-solving abilities with experience collaborating on production-grade solutions.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science & Engineering (AI & ML)

IMS Engineering College, Ghaziabad
Year : 2023-2026 [Lateral Entry]
Percentage (till 7th Sem) : 68 %

Diploma — Computer Science & Engineering

Galgotias University, Noida
Year : 2020-2023
CGPA : 8.48

EXPERIENCE

AI Automation Engineer (Freelance Project)

Client: Local Fitness Business

- Developed a Flask-based backend powering a production WhatsApp chatbot for a fitness business.
- Integrated WhatsApp Business API (Gupshup) using webhook architecture for real-time message handling.
- Built conversation workflows for customer inquiries, trial bookings, and automated menu interactions.
- Implemented lead management system with Google Sheets API for real-time data tracking.
- Designed lead classification logic (Cold / Warm / Hot) based on user intent.
- Deployed and maintained the system on Railway, ensuring reliable API and webhook performance.
- Optimized chatbot flows to support Instagram-driven lead generation via WhatsApp deep links.
- Collaborated in a 2-member engineering team to design and deploy a production WhatsApp automation system for a real business client.

SKILLS

Technical Skills:
Power BI (Dashboarding, DAX Basics, Power Query), SQL (Joins, Aggregations, Filtering), Excel (Pivot Tables, XLOOKUP, Charts, Data Cleaning), Python (Pandas, Data Processing)

Data Analytics Concepts:
Data Cleaning, Data Visualization, KPI Tracking, Reporting, Time-Series Analysis

Tools:
Power BI Desktop, MySQL, MS Excel, Git & GitHub, Postman

PROJECTS

Sales Analysis Dashboard

Excel | Power Query | Power Pivot

- Analyzed Ferns N Petals sales dataset containing orders, products, customers, and delivery information
- Built interactive Excel dashboard to track revenue trends across occasions, categories, and months
- Performed data cleaning and transformation using Power Query
- Used Power Pivot for data modeling and KPI-based analysis
- Identified top-performing products and cities through sales trend analysis
- Conducted order-to-delivery time analysis to evaluate operational efficiency

Clarity Band - Wearable Stress Detection System

Group Project | ESP32-S3 | Bio signal Sensors | Haptic Feedback

- Personalized user calibration with multi-sensor fusion for high-confidence stress detection
- Gentle haptic feedback to regulate the nervous system, experimentally validated for calming response
- Activity-aware detection to minimize false positives during exercise and movement
- **2nd Prize** — Synergy X: Project Expo 2026, IMS Engineering College
- **Finalist** — Sprint4Good AI Hackathon, IIT Delhi (Reskill)
- **Finalist** — Innovate 3.0 Hackathon, JIIT Sec-128, Noida

Vaayu Sentinel — AI-Enabled Air Quality Intelligence System

Group Project | Python | IoT | Computer Vision | Environmental Sensors | ML Classification

- Automated evidence capture during abnormal AQI spikes
- AI-driven source identification with action recommendations and agency-aware evidence routing
- Micro-area hotspot insights showing daily AQI rise rates and dominant pollution causes
- **Finalist** — First Global AI Summit 2K26 – Hackathon, GLA University, Greater Noida

ACHIEVEMENTS

- **2nd Prize** — Synergy X: Project Expo 2026, IMS Engineering College
- **Finalist** — Sprint4Good Hackathon, IIT Delhi
- **Finalist** — Innovate 3.0 Hackathon, JIIT
- **Finalist** — First Global AI Summit Hackathon
