Harshit Pandey

Sultanpur, India harshitpandey752@gmail.com +91 9811257047 LinkedIn GitHub

Skills

- **Languages**: Java (Primary), JavaScript, Python
- **Web**: HTML, CSS, React.js, Node.js, Express.js, REST APIs
- **Databases**: MongoDB
- **AI Integration**: Hugging Face Inference API, OpenAI API
- **Tools**: Git, GitHub, Postman, Chrome Extension APIs, Vercel
- **CS Fundamentals**: OOP, DBMS, Operating Systems, Computer Networks

Projects

CogniFlow – *AI-Based Productivity & Focus Tracking System* | *React, Node.js, Express.js, MongoDB, Chrome Extension APIs, Hugging Face Inference API*

- Built an AI-based productivity system that tracks **3 real-time behavioral signals** (tab switches, idle time, active usage) via a Chrome extension and aggregates activity across a **full-day (24-hour) window**.
- Designed a behavioral analytics pipeline that captures **subject-wise study duration** and classifies activity into **2 cognitive states (focused vs distracted)**, visualized using **pie charts and bar graphs**.
- Integrated the Hugging Face API to generate and iteratively refine **personalized daily study plans** using aggregated focus scores and historical subject-level time analytics.

Amazon Clone – *Full-Stack E-Commerce Web Application* | *React.js, Node.js, Express.js, MongoDB, Stripe API, Firebase Authentication*

- Developed a full-stack e-commerce platform replicating core Amazon functionalities, supporting user authentication, product browsing, cart management, and checkout workflows for **100+ concurrent sessions**.
- Built a dynamic product catalog rendering **real-time cart updates and order summaries**, reducing page reload dependency by leveraging React state management and hooks.
- Structured MongoDB schemas for users, products, and orders, optimizing query performance by indexing key fields and reducing data retrieval time by **30%**.

Development Practices

- Version control and collaboration using Git and GitHub (feature branching, pull requests).
- Environment-based configuration management and production-ready deployment using Vercel.

Research & Writing

- Authored a research manuscript based on the design and implementation of *CogniFlow*, focusing on AI-assisted productivity tracking and behavioral analytics; manuscript under peer review.

Certifications

- **Learn Java Programming** – Heriot-Watt University (Coursera) Jul 2025
  Credential ID: JYDK1E1W1OND
- **Data Analytics** – HCL GUVI Jul 2025
  Credential ID: 27415bj0Q8A71ie153
- **Data Science** – Infosys Jul 2025

Education

Bachelor of Technology in Computer Science *2022 – 2026*
IMS Engineering College, Ghaziabad *CGPA: 6.3*

Class XII *2022*
Percentage: 62%

Class X *2020*
Percentage: 75%
