Summary

Entry-level Software Developer with hands-on experience in Java, Spring Boot, and ReactJS. Skilled in building responsive web applications and secure backend systems using RESTful APIs and Spring Security(JWT). Strong foundation in Data Structures and OOP, with practical experience in MongoDB and MySQL. Looking for a Software Developer or Java Backend Developer role to contribute to scalable applications.

Skills

Languages: Java, JavaScript, Python
Backend Development: Spring Boot, RESTful APIs, Spring Security (JWT), MVC Architecture
Frontend Development: ReactJS, HTML, CSS, Tailwind CSS
Database: MongoDB, MySQL
Tools & Technologies: JUnit, Mockito, Postman, Git, GitHub, Maven, IntelliJ IDEA, VS Code
Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

Projects

Journal App (Backend System) — Spring Boot, Spring Security, MongoDB, JWT, Maven, JUnit — GitHub
- Developed a secure backend application supporting CRUD operations across 5+ REST API endpoints.
- Integrated email notifications and background scheduling features to enhance application functionality.
- Implemented JWT based authentication for secure and scalable user access.
- Designed a clean layered architecture (Controller → Service → Repository) improving maintainability and scalability.
- Performed unit and integration testing using JUnit to ensure application reliability.

Job Track (Job Portal) — ReactJS, Tailwind CSS, Firebase, JavaScript — LiveDemo
- Built a job portal with 4 dynamic filtering options (role, type, location, experience) improving search efficiency.
- Integrated Firebase authentication and managed user sessions securely.
- Executed CRUD operations with real time updates for job listings.

Task Flow (Task Manager) — ReactJS, Tailwind CSS, JavaScript, Local Storage — LiveDemo
- Created a task management system supporting 2 user roles (Admin, Employee).
- Implemented task tracking across 3 states (active, completed, failed) for better workflow management.
- Used local storage for efficient client-side data persistence and faster performance.

Experience

WordPress Developer Intern — Jan 2024 – Jun 2024
Brijwasi Chains India Pvt. Ltd. — *Kanpur, UP*
- Optimized and customized WordPress websites using Elementor according to client specifications.
- Applied responsive UI components using HTML, CSS, and JavaScript.
- Collaborated with cross-functional team members to optimize website performance.

Education

IMS Engineering College — Ghaziabad, UP
Master of Computer Applications (MCA) — *2024 – 2026*

Maharana Pratap Group of Institutions — Kanpur, UP
Bachelor of Computer Applications (BCA) — *2021 – 2024*

Extra-Curricular Activities

- Led a team in a college hackathon, designed a blogging platform project, and received a participation certificate.
- Completed a one-day JavaScript workshop organized by Softpro India Pvt. Ltd.
- Creates educational short-form content on YouTube and Instagram sharing insights on technology, AI, and study strategies.
