PROJECTS

Weather Based Delivery Charges ↗

- Built a web-based delivery pricing system that calculates charges based on weather, distance, and traffic conditions.
- Integrated weather API for real-time data and developed responsive UI with secure database support.
- Implemented user-friendly interface for order placement and price estimation.

Digital Diary ↗

- Developed a web-based digital diary application to create, edit, and manage personal notes securely.
- Implemented user-friendly interface with data storage features for easy access and organization of entries.

Portfolio Website ↗

- Designed and developed a responsive personal portfolio website to showcase projects, skills, and contact information.
- Clean UI, smooth navigation, and mobile-friendly design for better user experience.

ACHIEVEMENTS

- Completed multiple academic and self-learning coding projects.
- Consistently learning modern development tools and technologies.
- Maintained active presence on GitHub with personal projects.
- Strengthened problem-solving skills through coding practice.

DECLARATION

I hereby declare that all the information provided in this resume is true and correct to the best of my knowledge and belief.
