SUMMARY

React.js and MERN Stack Developer with 4 months of production internship experience building a CRM application used by active sales teams. Proficient in React.js, Node.js, Express.js, MongoDB, and Tailwind CSS. Currently adding TypeScript and Redux Toolkit to skillset. Graduating June 2026. Seeking SDE-1 or Frontend Developer role at a product-focused company.

EXPERIENCE

M/S Koncept Solutions — January 2026 - April 2026

Frontend Developer Intern

- Owned complete frontend development of a **B2B CRM application serving active sales workflows**, building **15+ reusable React components** with Tailwind CSS - reducing per-feature UI development time by 30%.
- Integrated **10+ REST API** endpoints for full lead lifecycle management, implementing error boundary handling and loading states that reduced user-reported data errors.
- **Collaborated with backend team** across sprint cycles using **Git feature-branch workflow**; participated in code reviews and resolved 12+ cross-browser compatibility issues ahead of production release.

NullClass — July 2025 - August 2025

Frontend Intern

- Developed **5+ responsive UI** pages/components using **React.js**, **HTML**, **CSS**, and **Tailwind CSS**, ensuring consistent performance across desktop and mobile devices.
- Integrated **3+ API** endpoints to fetch and display dynamic content, reducing manual data handling by 40% and improving application responsiveness.

PROJECTS

CRM Web Application — GitHub

- Built **full-stack B2B CRM** with **JWT authentication** and role-based access control protecting all API routes via **Express authorization middleware**.
- Engineered lead dashboard with status filtering using **useMemo** and **React.memo**, preventing unnecessary re-renders on 200+ lead datasets; deployed on **Vercel + Render**.
- Designed **MongoDB** compound indexes on (status, assignedTo, createdAt), reducing filtered query time by 35%; set up GitHub Actions CI for automated ESLint on every PR.

Voice-Driven Meeting Assistant — GitHub

- Built a voice-driven meeting assistant using **TypeScript**, with separate **React frontend** and **Node.js/Express backend modules**.
- Integrated **Web Speech API** for real-time voice command processing with 90%+ accuracy; implemented **OAuth 2.0 Google Calendar API** for one-click meeting creation.

Task Management System — GitHub

- Developed full-stack task tracker with **JWT auth**, **role-based access** (admin / member), and **Kanban-style** status tracking; deployed frontend on Vercel, backend on Render.
- Developed **CRUD functionality** for task creation, assignment, status updates, and deletion using **REST APIs** with **MVC architecture**.

SKILLS

- **Languages**: Java, JavaScript, TypeScript, SQL
- **Frontend**: React.js, HTML5, CSS3, Tailwind CSS
- **Backend**: Node.js, Express.js, REST APIs, JWT, Authentication & Authorization
- **Database**: MongoDB
- **Tools**: Git, GitHub, Postman, VS Code

EDUCATION

IMS Engineering College — Aug 2022 - June 2026

B.Tech in Computer Science — *CGPA: 7.2*

Govt Girls School , Ajmer — 2020 - 2021

12th(RBSE) — *PERCENTAGE : 91%*
