EDUCATION

Babu Banarasi Das University, Lucknow **2020 – 2024**
B.Tech - Computer Science and Engineering - ***Percentage - 74%***

TECHNICAL SKILLS

Languages: Python, C++, JavaScript
Frontend: HTML, CSS, React, jQuery, Bootstrap
Backend/Frameworks: Node.js, Express.js, Django, Django REST Framework
Database: MySQL, PostgreSQL
Software Development Methodologies: Agile, Waterfall
Developer Tools: Git, GitHub

Experience

Full Stack Developer | **SSGNetQ Pvt Ltd** | Live Project **October 2025 - Present**

- Developed backend application logic using Node.js and Express to manage service ticket creation and engineer assignment workflows.
- Built dynamic frontend components using React, ensuring seamless interaction between user inputs and backend processing.
- Integrated PostgreSQL database for secure storage and retrieval of client requests, ticket records, and engineer assignments.
- Followed Git-based version control workflows and modular architecture principles for scalable feature development.

Freelance Full Stack Developer | **Corporate Security** | Live Project **February 2025**

- Designed, developed, and deployed a full-stack web application for a private security and facility management firm to digitize service operations.
- Built a responsive frontend using React and Bootstrap, improving user engagement and reducing bounce rate by 35%.
- Developed backend services using Django with MySQL for managing service requests, client inquiries, and contact form submissions.
- Improved online presence and increased customer inquiries through enhanced digital engagement.

Projects

MyFitness Website | Python, HTML, CSS, Django Framework, Bootstrap, MySQL

- Created a dynamic fitness website to track workouts and nutrition.
- Implemented a database schema for storing user workout data.
- Developed a personalized user dashboard for tracking fitness goals.

E-commerce Website | Python, Django Framework, Bootstrap, MySQL

- Built a secure and scalable E-commerce platform with Python and Django, enabling seamless product browsing, cart management, and checkout functionality.
- Implemented a robust user authentication and authorization system, enhancing platform security.
- Designed a responsive and user-friendly interface using Bootstrap.

COURSEWORK

- Data Structures & Algorithms
- OOPS Concept
- Web Development

SOFT SKILLS

- Problem Solving
- Effective Communication
