Professional Summary

Software Engineer aspirant with strong knowledge of Java, Full Stack Development, Data Structures & Algorithms, and Software Development Lifecycle. Skilled in building scalable applications, REST APIs, backend systems, and intelligent software solutions. Hands-on experience in Java, React.js and Node.js with strong problem-solving, debugging, and analytical skills.

Education

IMS Engineering College, Ghaziabad 2022 – 2026
B.Tech in Computer Science and Design — CGPA: 6.8

Technical Skills

Programming Languages: Java, Python, JavaScript, SQL
Frontend Technologies: React.js, HTML5, CSS3
Backend Technologies: Node.js, REST APIs, MongoDB
Database & Tools: MySQL, Git, GitHub, VS Code
Core CS Concepts: Data Structures & Algorithms, OOPs, DBMS, Operating Systems, Computer Networks, SDLC, Agile Methodology, software Testing debugging

Projects

Smart Lecture Summarizer | Project Link
- Developed an AI-powered lecture summarization platform using NLP and speech-to-text processing.
- Built scalable RESTful APIs and integrated MySQL for efficient storage and retrieval of lecture data.
- Implemented automated question generation and content summarization features to improve learning accessibility.

Task Manager Application | Project Link
- Designed and developed a full-stack task management system with authentication and CRUD operations.
- Built optimized backend services capable of handling concurrent requests efficiently.
- Implemented responsive UI components and API integrations for better user experience and performance.

Driver Drowsiness Detection System | Project Link
- Developed a real-time driver monitoring system using computer vision and facial landmark detection.
- Implemented Eye Aspect Ratio (EAR) based fatigue detection for real-time safety alerts.
- Improved detection accuracy using Machine Learning and OpenCV techniques.

Internship Experience

1M1B Foundation Jul 2025 – Sep 2025
Data Analytics Intern
- Built interactive dashboards using Tableau to support data-driven business insights.
- Analyzed datasets, identified trends, and improved reporting accuracy.

SkillRisers Jan 2024 – Feb 2024
Data Analyst Intern
- Performed data cleaning, preprocessing, and analysis using Python.
- Optimized scripts for improved execution speed and workflow scalability.

Achievements

- Solved 150+ Data Structures and Algorithms problems on coding platforms like LeetCode.
- Built multiple AI and full-stack development projects focused on scalable software solutions.
- Strong understanding of software engineering fundamentals and debugging techniques.

Certifications

- Python Programming Certification
- Java Programming Certification (OOP Concepts)
- Structured Query Language (SQL) Certification
- Microsoft Excel for Data Analysis and Dashboarding
