ABOUT

Computer Science undergraduate skilled in Python, SQL, Cloud Computing, Data Analysis, and Software Engineering. Experienced in AI-based application building, database management, and developing scalable solutions. Strong foundation in algorithms, machine learning,and software design.

EDUCATION

IMS Engineering College *September 2022 – July 2026*
BTech – 8.2

R.R.Morarka Public School *April 2021 – April 2022*
High School – 77.6%

R.R.Morarka Public School *April 2019 – April 2020*
Secondary School - 91%

PROJECTS

SkinSight | Python,TensorFlow, OpenCV, React.js, Node.js, Express.js, MongoDB *August 2025 – Ongoing*

- Designed and developed a web-based AI system for automated skin disease detection using CNN and Deep Learning models.
- Built a MERN stack application with role-based dashboards for patients, doctors, and admins.
- Enabled prediction reports, consultation features, and ensured scalability through REST API integration.

Face Detection | Python, OpenCV, NumPy, Haar Cascade Classifier *Dec 2023-Feb2024*

- Implemented a real-time face recognition system using Haar Cascade and OpenCV with 500+ image datasets per user.
- Achieved precise distinction between individuals through robust preprocessing and classification.
- Tested detection across static and live video streams to ensure consistent accuracy.

HealthSpot | MERN Stack (MongoDB, Express.js, Node.js), JavaScript, HTML5, CSS3 *July 2025*

- Developed a full-stack healthcare portal using Node.js, Express, MongoDB, and vanilla JavaScript.
- Built responsive UI and RESTful APIs for features like doctor search and contact forms.
- Implemented Agile methodology and Git version control to deliver the project successfully.

INTERNSHIP

SLY Solutions *July 2025- August 2025*
Full Stack Developer

- Built full-stack HealthSpot portal using MongoDB, Express.js, Node.js & JavaScript
- Developed RESTful APIs and database integration for doctor search & contact forms
- Created responsive UI with HTML5, CSS3 & JavaScript for optimal user experience
- Managed project with Agile methodology & Git version control

TECHNICAL SKILLS

- Languages: Python, JavaScript, C, Java,SQL,HTML,CSS
- Frameworks/Libraries: React, Pandas, Numpy
- Tools: Git, VS Code, Jupyter, Notebook, Power BI
- Other: Debugging, Web APIs, Frontend & Backend Integration, Time Management, OOP, Agile methodology

CERTIFICATIONS

- Cloud Practitioner Essentials-AWS
- Data Analytics Training-Skillrisers Infotech Pvt. Ltd.
- Developer and Technology Job Simulation-Accenture UK
- Python Programing Internship -Codsoft
