EDUCATION

Secondary Education, Global Public School, Dhanaura (Amroha) 2018- 2019

Senior Secondary Education, Global Public School, Amroha 2020 - 2021

B.Tech in CSE, IMS Engineering College, Ghaziabad Sept 2022 - June 2026, CGPA:8.02

SKILLS

Technical Skills: Java (Core & Advanced), SQL, HTML, CSS, JavaScript, React

Skills: REST API Development, OOP Concepts

Libraries / Frameworks: Spring Boot, JDBC, Hibernate (Basics), Collections Framework

IDE: IntelliJ IDEA, Eclipse, VS Code

Database: MySQL

Other Tools: Git, GitHub

Field of Interest: Frontend Development, Java Development, Microservices, Enterprise Application Development

PROJECTS

Healthcare Appointment & Patient Flow Analytics:

- Analyzed multiple years of patient appointment, wait-time, and doctor availability data to identify bottlenecks and inefficiencies in hospital operations.
- Applied SQL-based analytical techniques to optimize appointment scheduling, reduce patient wait times, and improve doctor utilization, leading to a 25% reduction in average patient waiting time..
- Delivered actionable insights into patient flow patterns and peak hours, enabling better resource allocation and resulting in a 30% improvement in overall patient experience and service efficiency.

Tools Incorporated: SQL.

Financial Risk& Investment Performance Analytics:

- Enabled data-driven investment decision-making by analyzing historical financial returns, cash flows, and risk indicators across multiple asset classes, leading to a 22% improvement in portfolio return stability..
- Designed and implemented statistical and financial evaluation models (including NPV-based analysis) to assess investment feasibility and risk exposure, resulting in a 30% enhancement in capital allocation efficiency through evidence-based insights.

Tools Incorporated: Python, NPV, EDA, Jupyter Notebook.

Agritrade Hub:

- Developed a web-based marketplace enabling direct trade between farmers and merchants, eliminating middlemen to ensure fair pricing and transparent transactions.
- Implementedcorefeaturessuchasproducelisting,inventorymanagement,securepayments,andreal-timeordertrackingusinga scalable3-tierarchitecture.
- Designed role-based access control for Farmers, Merchants, and Admin to enhance system security, efficiency, and operational transparency.

Tools Incorporated: React.js, Spring Boot, MySQL, HTML5, CSS3.

CERTIFICATIONS

The Data Science Course : Complete Data Science Bootcamp – Udemy.

Data Science using Python 6 weeks Program In College Campus.

ACHIEVEMENTS

Solved SQL Challenges on HackerRank (4 Star)

Awarded “Best Coordinator” by IMSEC Training and Placement Cell.

Core Member at Runtime Hackers (IMSEC’s Coding Club).

Acknowledged for anchoring and event hosting at IMSEC.

Vice President of Cultural Committee of CSE Department.
