AYUSH GUPTA

ayushguptanaren@gmail.com | +91-9599673475 | www.linkedin.com/in/ayushgupta71

Summary

Data Science and AI student skilled in Python, machine learning, and data analysis. I aim to use data and AI techniques to build simple, useful, and intelligent tools for real-world use.

Technical Skills

Languages: Python, Java
Data Science: Pandas, NumPy, Matplotlib, Machine Learning, Scikit-learn, TensorFlow
AI: Deep Learning, Neural Networks, NLP
Web development: HTML, CSS, Node.js, Express.js, React.js
Database: MySQL
Other: DSA, Git, GitHub, LLM(Large Language Model), RAG(Retrieval Augmented Generation)

Education

Bachelor of Technology in Computer Science & Engineering IMS
Engineering College, Ghaziabad | 2022 – 2026

Projects

RAG Based AI Teaching Assistant

Developed an AI-powered teaching assistant using RAG (Retrieval-Augmented Generation) to provide accurate, context-aware answers from videos using LLM. Enables interactive Q&A, personalized learning, and step-by-step explanations for students. Supports custom data integration, allowing users to upload videos, convert them to embeddings, and generate AI-driven responses for their own learning material.

Full Stack URL Shortener

Developed a web application that allows users to shorten long URLs and track clicks for better link management. Implemented using HTML, CSS, JavaScript, Node.js, Express.js, and MongoDB for backend, and React.js for frontend. Features include custom short URLs, click analytics, and responsive design for seamless user experience. Integrated efficient data handling and REST APIs to ensure fast performance and scalability.

Certifications

- Certified in Data Analytics Using Python. (Skillrisers Infotech Pvt. Ltd)
- Certified in Data Science. (Code with Harry)
- Certified in PowerBI. (Skillrisers Infotech Pvt. Ltd)
