PROFILE SUMMARY

A motivated Computer Science student with a strong foundation in Data Structures, Algorithms, and Java. Passionate about Full-Stack Web Development and Data Science, with hands-on experience building dynamic web applications and AI/ML-driven solutions. Eager to leverage skills in React.js, Python, and Machine Learning to develop innovative, data-driven, and user-friendly products.

SKILLS

Technical Skills-

Programming Languages: Java, Python, JavaScript

Web Development: HTML, CSS, React.js

Databases: MYSQL, Firebase

Data Science & AI: Data Analytics, Machine Learning, Deep Learning

Soft & Professional Skills-

- Technical presentations (PowerPoint, visual aids).
- Technical writing (reports, project documentation).
- Team collaboration & interpersonal communication.

EDUCATIONAL QUALIFICATIONS

B.Tech in Computer Science and Engineering (with honors in Cyber Security) **2022-Present**
IMS Engineering College, AKTU, Ghaziabad SGPA: **8.67**

Class XII (CBSE) **2021**
Sunbeam School Varuna, Varanasi | Percentage: **89.2**

Class X (CBSE) **2019**
St. Mary's Convent School, Varanasi | Percentage: **92.4**

WORK EXPERIENCE

Web Development Trainee (React JS) — CETPA INFOTECH, NOIDA **Jan 2024 – Feb 2024**

- Built dynamic web interfaces using React.js with reusable components and React hooks.
- Integrated RESTful APIs and gained hands-on experience with front-end development workflows.

Full Stack Developer Intern (JAVA) — Tech Mahindra, Noida-NSEZ **June 2025 – Aug 2025**

- Worked on full-stack modules using Core Java, Spring Boot, and React.js under senior developer guidance.
- Gained exposure to Agile methodology and professional software development practices.

ACADEMIC PROJECTS

Anonymous Mental Health Forum

- Built a secure anonymous web platform using React.js and Python (Flask), enabling users to share mental health experiences without identity disclosure.
- Implemented JWT-based anonymous tokenization to ensure data privacy and secure user interactions.
- Integrated NLP techniques for sentiment analysis and trigger word detection on user-generated content.

Equal Footsteps

- Built a safety navigation app using React.js and Python with AI-driven route risk assessment based on crime data, traffic, and crowd density.
- Trained an ML model on community-sourced safety reports to recommend secure pathways over speed-optimized routes.
- Integrated real-time transport tracking and an SOS/emergency alert feature for immediate user support.

ACHIEVEMENT/ CERTIFICATIONS

- **1st Place Winner, Artificial Intelligence Hackathon** (Techgyan, IIT BHU, Varanasi).
- Generative AI Career Essentials Certification (Microsoft & LinkedIn).
- React JS Web Development Training Completion.
- Ethical Hacking Workshop Completion (Rendezvous 2024, IIT Delhi).
- Artificial Intelligence Workshop Completion (Techgyan, IIT BHU, Varanasi).
