BizMetrics360 : Business Visualizer- Power BI project
- Spearheaded development of interactive Power BI dashboards integrating data from 5 disparate sources, enabling real-time tracking of key performance indicators and reducing reporting time by 60 hours weekly.

SaH-AI-Yak Gen-AI Chatbot
- Developed a chatbot using DistilBART model with real-time summarization, reducing input size by 50%. Achieved < 2s query response time for 100+ daily requests.

Document Support Engine
- Invented a fully automated document ingestion pipeline that watches S3, Google Drive, or Notion for new files, and chunks them intelligently.

Student Placement Predictor: IVY league Score
- Built and deployed a ML-driven tool leveraging Generative AI to analyze student data (IQ, profile score, CGPA) for job placement predictions with 85% precision. Enhanced placement decision-making for career counselors with actionable insights

SUMMER INTERNSHIP

INTERNSHIP AT JAYPEE INSTITUTE OF INFORMATION TECHNOLOGY SECTOR-62
Intern
06/2025 - 07/2025
Work
- Enhanced multi-threaded data pipelines, improving performance. Applied parallel computing and GPU-based optimization on high-performance clusters for AIML production.
