ASHWIK DUBEY

Delhi, In | ashwikdubey512@gmail.com | +91 8542056343 | LinkedIn | Github

PROFESSIONAL SUMMARY

Full Stack Developer specializing in the MERN stack with experience in JavaScript, Node.js, Express.js, React.js, and Next.js, and a strong foundation in Data Structures and Algorithms using Java. Competitive programming background with 350+ problems solved on LeetCode. Focused on building scalable, reliable systems and efficient APIs.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL, HTML5, CSS3

Backend: NodeJs, ExpressJs, RESTful APIs

Frontend: React.js, NextJs, Redux, Tailwind CSS, Bootstrap, GSAP

Database: MySQL, MongoDB

Tools: Git, GitHub, Vercel

PROFESSIONAL EXPERIENCE

Web Developer Intern | FBT Adventures LLC

Dec 2024 - March 2025

NOIDA, India

- Developed responsive UI components using React.js and Tailwind CSS, improving usability and ensuring cross-device compatibility
- Integrated REST APIs for dynamic data rendering, enhancing application performance and reducing load delays
- Optimized UI performance and fixed critical bugs, improving responsiveness and overall user experience
- Developed reusable UI components to maintain consistency across the application and speed up development

PROJECTS

AI Interview Report Generator | Live Link | GitHub Link

May 2026

ReactJs, Node.js, Express.js, MongoDB, Gemini API

Full-Stack web app that uses JWT based authentication and authorization and generates personalized interview reports including match score, mock questions, learning roadmap with modern UI and also stores the previously generated reports by the user.

- Integrated Gemini API to analyze user resumes (PDF), job descriptions, and self-descriptions, generating comprehensive interview feedback and career recommendations.
- Designed and implemented secure JWT-based authentication and authorization, enabling protected routes and personalized user dashboards.
- Built a report management system using MongoDB, allowing users to store, retrieve, and review previously generated interview reports through a responsive React-based UI.

XORA – SAAS Landing Page | Live Link | GitHub Link

Aug 2025 - Nov 2025

ReactJs, TailwindCSS

Modern SaaS landing platform designed to showcase digital products with a focus on high-conversion UI, smooth animations, and responsive user experience.

- Developed a high-performance SaaS landing page using React.js and Tailwind CSS with reusable component-based architecture, ensuring responsive design across devices
- Implemented smooth animations and optimized UI rendering to enhance user engagement and improve overall performance

E-Commerce – Modern Shopping App | Live Link | GitHub Link

Mar 2025 - June 2025

ReactJs, TailwindCSS, Redux

E-commerce web application enabling users to browse products, manage cart, and place orders through a smooth and responsive shopping experience.

- Built a responsive shopping interface using React.js and Tailwind CSS with product listings, detailed views, and intuitive cart functionality
- Implemented dynamic cart management and state handling to ensure seamless add/remove operations and real-time UI updates during the shopping flow

CERTIFICATIONS & ACHIEVEMENTS

- **PW certified Full Stack web Developer** – Full Stack development | Certificate ID: 3a7c10ad-7196-4c3d-ac25-227c3d80abfd

EDUCATION

B.Tech

2022 - present

JSS Academy of Technical Education (AKTU), NOIDA
