Summary

Frontend Developer specializing in React.js with hands-on experience building responsive and scalable web applications. Proficient in JavaScript, HTML, CSS, and modern frameworks with strong knowledge of REST API integration, authentication (JWT), and component-based architecture. Experienced in full-stack development using Node.js, Express.js, and MongoDB, with a focus on performance optimization and user-centric design.

Education

- **B.Tech (CSE - Data Science)**, JSSATE Noida — Aug 2022 – Present
  CGPA: 7.0
- **Class XII (CBSE)**, Gopal Public School, Sultanpur — Apr 2021
  Percentage: 81.6%
- **Class X (CBSE)**, Stella Maris Convent School, Sultanpur — Apr 2019
  Percentage: 94%

Skills

Programming skills : JavaScript,HTML,CSS,Java
Frameworks : React.js,Node.js,MongoDB,MySQL,Tailwind CSS,REST APIs,Express.js
Tools : Git/Github,CI/CD,Docker,Postman,Agile,VS Code,AWS,Netlify
Soft Skills : Problem Solving, Self-Learning, Adaptability

Experience

Frontend Web Devlopment Intern |Logics Network Institute of Technology (LNIT) July 2025 - Dec 2025

- Completed a Frontend Development internship using React.js, building responsive web applications with reusable components, React Hooks, and state management using Redux.
- Integrated REST APIs and optimized performance to deliver scalable, user-focused solutions while collaborating with senior developers.
- Gained hands-on experience in debugging, code optimization, and implementing best practices for maintainable and efficient React applications.

Projects

HireBase - Job Matching Platform for Recruiters and Seekers Jan 2024
Live Demo

- Developed a full-stack job portal that allows users to register, search for jobs, and apply seamlessly.
- Implemented JWT-based authentication, role-based access control, and secure REST APIs for user and job management.
- Designed a responsive UI with Tailwind CSS and integrated Axios for efficient client–server communication.

ResumeScan – AI-Powered ATS Score & Resume Analysis Platform Nov 2024
Live Demo

- Developed a full-stack web application that analyzes resumes, calculates ATS scores, and provides detailed keyword and skill-gap reports to improve hiring chances.
- Implemented Puter for cloud file handling, React Router for seamless navigation, and Node.js/Express for backend processing.
- Used MongoDB for storing reports, Tailwind CSS for UI and Axios for API communication. Enhanced report accuracy through advanced keyword matching, increasing user satisfaction ratings by 25

Certifications and Achievements

- Data Structures and Algorithms using Java – Coding Blocks — Nov 2023 – Apr 2024
- Gen Ai Powered Data Analytics- Tata — July 2025
