CAREER OBJECTIVE

Motivated computer science student seeking opportunities to apply skills in Python, machine learning, and deep learning to solve real-world problems while contributing to innovative technology development

EDUCATION

B.Tech, Cse (aiml) 2022 - 2026
JSS Academy of Technical Education, Noida

Diploma, Computer Science & Engineering 2020 - 2023
Government Polytechnic Mawana Khurd

Percentage: 72.00%

Secondary (X), CBSE 2020
Bhagirathi Vidyalaya, Po Haripur Kalan Raiwala Distt Dehradun Uttaranchal

Percentage: 82.00%

TRAININGS / CERTIFICATIONS

SQL
Mar 2026 - May 2026

Hacker Rank, Virtual

Successfully completed the SQL certification from HackerRank, demonstrating knowledge of database concepts, SQL queries, joins, subqueries, aggregate functions, and data manipulation techniques. The certification validates practical problem-solving and database management skills through coding-based assessments.

Python
Feb 2026 - Mar 2026

Hacker Rank, Virtual

Successfully completed the Python certification from HackerRank, demonstrating proficiency in Python programming concepts including data types, functions, object-oriented programming, file handling, and problem-solving. The certification validates coding skills through practical programming assessments and real-world problem-solving challenges.

Data Science Real World Project In Python
Jan 2026 - Mar 2026

udemy, Virtual

Data Science Real World Projects in Python – Udemy

- Learned practical implementation of Data Science and Machine Learning using Python.
- Built projects on airline fare prediction, movie recommendation systems, password strength prediction, and stock price forecasting.
- Worked with Python libraries such as Pandas, NumPy, Matplotlib, and Scikit-learn.

Introuduction To Automation
Aug 2021

Edapt, Virtual

Successfully completed an online training program ‘Introduction to Automation’ by Edapt. Gained knowledge of automation fundamentals, industrial automation systems, control mechanisms, and their applications in improving efficiency and productivity

Cybersecurity
Jul 2021

Edapt, Virtual

successfully completed an online Cybersecurity training by Edapt covering topics such as information security principles, cyber attacks, malware, network security, cryptography basics, and methods to protect digital systems and data.

PROJECTS

Predict airfare using Machine learning models project

Jan 2026 - Apr 2026

Developed a Machine Learning project to predict airline ticket prices using historical flight data and various predictive algorithms. The project involved data preprocessing, feature engineering, exploratory data analysis, and model training to improve fare prediction accuracy. Implemented algorithms such as Linear Regression, Random Forest, and Decision Tree using Python libraries including Pandas, NumPy, Scikit-learn, and Matplotlib.

Build Alexa-like Voice Assistant using Deep learning models

Oct 2025 - Dec 2025

Developed an AI-based voice assistant capable of understanding voice commands and performing tasks such as web searching, opening applications, and providing spoken responses. The project used Python along with speech recognition and text-to-speech technologies to simulate an Alexa-like virtual assistant. Implemented Natural Language Processing (NLP) and Deep Learning concepts for voice interaction and command processing.

Smart campus

Oct 2025 - Dec 2025

Implemented a Smart Campus project that focuses on integrating smart technologies to improve campus operations such as resource management, communication, and security. The system aims to create a more efficient and connected campus environment.

DRL_jobshop

Oct 2025 - Present

Working on a Deep Reinforcement Learning based Job Shop Scheduling system to optimize task allocation and machine utilization. The project involves building a scheduling environment, training a DRL agent, and evaluating performance based on makespan and efficiency

SKILLS

- Python
- MongoDB
- Deep Learning
- Artificial intelligence
- Machine Learning
- Natural Language Processing (NLP)
- SQL
- Data Science
- Data Analysis
